No. 1808.

Pittsburgh, Pa.,

September 17, 1934.

The Honorable,

The President and Members  
of Council of the City of  
Pittsburgh,

City-County Building,

Pittsburgh, Pennsylvania.

RE: Allegheny County Authority.

Gentlemen:

In the matter of Plan No. 100, of

what is commonly called Liberty Tube Plaza, and with reference to the points of difference between the Authority and your Department of Public Works:

In addition to the points clarified at the Meeting with your Honorable Body, the City Planning Commission, the Better Traffic Committee, and the Department of Public Works, held on Monday, September 10, 1934, which were as follows:

- (1) The addition of a third lane to West Liberty avenue, southbound, estimated to cost \$10,000.00.
- (2) The addition of a third lane to Saw Mill Run boulevard, eastbound, estimated to cost \$2,000.00.
- (3) The increase from two to four lanes of the West Liberty avenue Ramp, estimated to cost \$30,000.00; and
- (4) The increase from three to four lanes of the Saw Mill Run boulevard Ramp, estimated to cost \$74,000.00;

The Authority now agrees to assume the following additional expenditures as suggested by your Department of Public Works:

- (5) The relocation of Pioneer avenue, estimated to cost \$63,000.00.
- (6) The purchase of certain additional property at the southeast corner of the Plaza, estimated to cost \$130,000.00.
- (7) The installation of light-control for Saw Mill Run boulevard eastbound traffic destined for the tunnels, estimated to cost \$500.00.

These concessions total \$309,500.00.

It must be understood that we make each of them subject to the approval of the authorities of the Federal Emergency Administration of Public Works, which we shall in good faith endeavor to obtain.

With the greatest respect, we are unwilling to concede or recommend to the Public Works Administration, the other point suggested, namely the purchase of a new right of way for the Pittsburgh Railways Company, to be occupied at some future date when the necessity arises. Our reasons for this are (a) the extreme remoteness of the possibility of this right of way being needed in the present uncertain state of trolley-transportation, and (b) the

unwisdom of making a large investment which will necessarily bear interest for the next 30 years, in order to take improved property out of the tax column and so render it immediately non-productive to the County, City and School District.

Yours very respectfully,

PRESS C. DOWLER,  
E. N. HUNTING,  
WILLIAM McK. REED,  
Members, Allegheny  
County Authority.

Which was read, received and filed.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. Magee arose and said:

Mr. President: I think the City Council of Pittsburgh should pass this ordinance over the veto of the Mayor because of the manifest advantages that will accrue to this community; first, in the way of the tremendous amount of employment that will be given to the unemployed people; secondly, the amount of industry that it will give to the plants in this district; and lastly, because it will be a considerable improvement to the highway system of Pittsburgh.

The improvements that are proposed at the south portal of the Liberty Tubes should have been made when the structure was built. There was an effort at that time, on the part of the City Planning Commission, to persuade the Commissioners of Allegheny County to include these improvements in the plans drawn at that time. We were ignored or overruled, and the Ten Million Dollar improvement was made without these things having been done.

Now, we have protests, of course, from the people in the South Hills of the City, who will be burdened with a five-cent toll. I have given full consideration, for my part, to their claim, and I don't believe they are just. They use the word "injustice" and "discrimination". I don't think we will be doing an injustice by giving our consent to an improvement whereon a toll will be imposed; and I don't think you can use the word "discrimination" by what is being done to them.

The Ten Million Dollar improvement that was made and taken advantage of

for the past few years was paid for entirely out of the general expense to the taxpayers of Allegheny County, and the benefits to the owners of property in the South Hills, both in and out of the City, was enormous. I will not try to calculate these benefits in dollars and cents, but I am certain that it is ten times as great as the \$10,000,000 that the County paid for these improvements. If justice were done, a toll should have been put on the bridge in the beginning. If we had what they have in other cities of the United States, the District Assessment Plan, the property in the South Hills would have been assessed for the total cost.

To complete this improvement requires these improvements, and in order to secure the money with which to pay for them a loan is to be secured from the United States Government, and to guarantee the payment of this loan the projects must be self-liquidating, hence the toll.

The people in the South Hills say they will pay off the expense of all the other improvements that are to be put through by the Allegheny County Authority. It might turn out that they will pay more than the actual amount in this particular improvement, but if they do pay the \$24,000,000.00, this community would not pay more than has already been given them as a gift by the people of this County. The gigantic improvements made in this community were made at the expense of the general taxpayers of Allegheny County, and it is now looking to them to pay part of these improvements. No such benefits have been conferred upon any other community.

Furthermore, it has been shown by traffic counts that they will pay a small portion of the tolls. It might be said that people will by-pass the tubes and go via Brownsville road or the Mt. Washington roadway. If they do they will spend as much for gasoline as they would in tolls.

I have heard no argument against the principle or expediency of these improvements that would persuade me to sustain this veto, and everything that has been said on the subject should be decided on that score.

Mr. Demmler arose and said:

Mr. President: I am sure that

no one is opposed to providing employment for the unemployed people of Pittsburgh and Allegheny County. I am as anxious to do my share as anyone to give as much employment as possible to our people, but this ordinance before us today involves various other questions. I believe Council should carefully consider before taking final action every question relating to this subject.

I question whether we are taking action on this Mayor's veto according to law. In this respect I would refer the members of Council to the rules on page 67 of the Council Manual. If we have delayed this long, may it not be well to delay another week? We know the original plan for the plaza at the south end of the tunnels has been changed on several occasions. It may be changed again.

I believe Council should have before it the contract-agreement between the Allegheny County Authority and the Federal Government before taking action. Until this contract is sent to Council and made public, I believe we should delay action.

This ordinance has been said to mean that City Council gives its consent to the placing of tolls on the projects of the Allegheny County Authority. Is this Council's intention? A much larger question than contained in this consent ordinance can be raised.

Permit me to read from the State Act creating this Authority: Article I, Section 1, Paragraphs, (g), (h) and (k):

"(g). The term 'Revenues' shall mean all tolls, rates, rents, fees and charges to be established, levied and collected in connection with and all other revenues and receipts of whatever kind or character arising out of any of the Improvements."

"(h). The term 'Administrator' shall mean the Federal Emergency Administrator of Public Works or other person or agency designated by the President of the United States to effectuate the purposes of Title II of the National Industrial Recovery Act.

"(k). The term 'Holder of Bonds' or 'Bondholder' or any similar term shall mean any person who shall be the bearer of any outstanding Bond or Bonds registered to bearer or not

registered or the registered owner of any outstanding Bond or Bonds which shall at the time be registered other than to bearer."

The question arises, "How far can the Authority go? Where can tolls be placed?"

I might refer to the meeting which we had on August 28th with the County Commissioners in the Council Chamber. During the discussion, I made this statement, "There has been a lot of discussion regarding this improvement. I want to know definitely whether the Government loan is dependent on the tolls on the Liberty Tunnels?" The answer by Mr. Hunting was, "Yes, we cannot get the loan without making the project self-liquidating." Mr. Magee said, "And the different projects are not separated in the grant. It is all or nothing." Mr. Hunting, "No, I wouldn't say that."

As to the five-cent toll, the question was asked, "Will the toll be five cents?" Mr. Hunting answered, "The whole thing has been set up on that basis. It might be necessary to charge more to liquidate the loan."

I believe Council should still have more information before acting on this consent ordinance.

Mr. McArdle arose and said:

Mr. President: In the beginning when this bill was acted on, I was not present, but I said if I were present I would not support it, and in voting to sustain the Mayor's veto I am arising to point out that I am not doing it for the reasons advanced in the Mayor's veto; I neither have any complaint to make about the plans. I am opposing the ordinance because it makes out of the Liberty Tubes a toll project.

I have listened to what Mr. Magee said, and I call attention to the fact that he himself has answered the question. It can be justified if all the projects in Allegheny County, which were authorized at the time the Liberty Tubes and Bridge were constructed, were put under the same kind of prescription as to their use. What has been said about the effects of the Liberty Tubes may be said, in a greater or less degree, about the other improvements in which the City and County engage. They have affected property values.

These property values were affected some time ago. The Liberty Tubes have been in use 10 or 12 years. It was authorized and paid for by the people for 10 or 12 years, or upwards of one-third of the total cost. These values were added to the tax list in the territory by the increase of that value. For the most part, or to a great extent, greater than any other section of Allegheny County, the ownership of that ground has changed hands, and it came into the hands of the present owners on the basis of that new valuation, and they paid for it as it is. The effect, so far as the home owner or the taxpayer is concerned, of placing a five cent toll on the tubes, if he uses it both ways every day in the year, is more than equivalent to 10 per cent increase in taxes. What does he get? In order to get a \$1,500,000 improvement, the people who live in the district will have their use of a \$10,000,000 improvement (the Liberty Tubes and Bridge) thrown into the bag, not only to pay for their own improvement, but to pay for all improvements. It amounts to close to 75 per cent, so that when we analyze it, in order to get this \$1,500,000 improvement, which Mr. Magee says should have been a sane part of the original improvement, and still leaves another sane part of the same improvement from being completed after it is done, the only thing the people get is a by-pass for that end of the tubes.

They get this \$1,500,000 improvement, and have their use of a \$10,000,000 improvement thrown into the bag, not to liquidate the improvement they get and use, but to liquidate all of these improvements, some of which are tolled and some of which are not tolled.

Council knows little about this plan, because we have not been taken into the confidence of the promoters of it.

Now, as to the benefit to the users of this intersection where the improvement is to be made. Whether they use the tubes or go the other way, and those who go the other way pay nothing so far as this improvement is concerned, and that equals 12½ per cent of the number of vehicles that pass this point, so that the toll payer at this point must, for the use of this particular improvement by the people who use Saw Mill Run boulevard, go to the

other end of Saw Mill Run boulevard or the Mt. Washington Roadway, or in whatever direction they chose to travel, and in my judgment, it imposes a burden upon them on the theory that there is no way to escape it. I still hold that it constitutes a breach of faith with the people who authorized the original expenditure.

There are many questions that could be injected into this toll question, but I wish to call Council's attention to the construction of another project which the public officials propose to make—the new tunnels and bridge connecting the lower downtown section with Saw Mill Run boulevard. It will have the effect presently of easy access to undeveloped property. This will have the same affect on property such as Mr. Magee speaks of—the same result on property values as the opening of the Liberty Bridge and Tubes. The Fort Duquesne Bridge and Tubes lead directly into the proposed improvement of Banksville avenue. The effect of that improvement is what? It is to open up the largest and best section of undeveloped territory in Allegheny County contiguous to the City of Pittsburgh. And opening it, mark you, without imposing any necessity for the use of these two projects, because it will be handy to this untolled improvement to get to and from Pittsburgh and other points by the use of facilities that are already available and which will reflect in the general taxes.

Mr. Kane arose and said:

Mr. President: I want to state my position on this bill before us. I want to say definitely that I don't favor tolls any more than any other member of Council. In this particular case we will have to pay tolls if this plaza is completed.

I have listened to the arguments against this Authority bill. I have some knowledge of it. As a member of the Legislature, I appeared before Civic Bodies in the Brookline section and outlined to those people that this bill was pending, and I would like to have an expression from them as to whether or not they favored the setting up of a County Authority, stating to them that at that time we didn't agree that this County Authority should be set up. I want to saw, for the record, that I re-

ceived two postal cards, expressing to me the wishes of the people in that district—one favorable and the other against. We fought that proposition on the floor of the House of Representatives until we finally had to accept the Authority Bill as it is today.

I heard all the arguments for and against the proposal, and from a selfish standpoint, I don't want to put a toll on that improvement, but it is the only way we can get these millions of dollars to put people to work. I heard the figures from the engineers that 12,000 people will probably get work. I am not questioning the engineers' figures. I am taking this position to help the unemployed. If a man owns an automobile and desires to use this improvement, he surely can pay 10 cents. This unemployment problem is a more serious thing. Competent officials in Washington have stated that by February, 1935, 5,000,000 people will be on direct relief in the United States. I am interested in property in the South Hills, but 5,000,000 people on direct relief are a serious threat, not only to property but to the Government itself.

I want to put people to work, whether it is one thousand or twelve thousand.

I am interested in the development of the South Hills. My home is in the South Hills, and I intend to live in the South Hills. As far as having pride in the South Hills, I have as much interest in it as any other citizen.

I recognize the necessity of putting people to work, and if we can get \$24,000,000 to make improvements in the City of Pittsburgh and Allegheny County without increasing the burden on the entire taxpaying public, I am going to support this bill.

Mr. Gallagher arose and said:

Mr. President: I, too, wish to state my position on this bill. I am of the same opinion as the other members of Council who favor this bill. We have to start somewhere to put people back to work, and this is a good beginning. I am not in favor of collecting tolls on any of these projects, but that is the only way the County could secure the loan by guaranteeing that the projects would be self-liquidating. It may be possible that before many years the Government will cancel some

of these claims against municipalities. For that reason I am going to vote for the ordinance.

And the question recurring, "Shall the bill become a law notwithstanding the objection of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Anderson	Kane
Gallagher	Magee
Huston	Garland, (Pres't)

Noes:—Messrs.

Demmler	McArdle

City of Pittsburgh,

September 17, 1934.

To the Honorable, Council of the  
City of Pittsburgh.

Gentlemen:

The City Clerk, at the suggestion of Council, has asked whether the Deputy Mayor has, under the law, the legal right and power to sign and approve Ordinances and Resolutions so that the same shall be fully effective and binding.

You are advised that in my opinion there is not the slightest doubt that he can do this. The Act of June 22, 1931, P. L. 665, 53 P. S. 8395, is most clear and explicit, stating:

"... the person so designated shall be known as deputy mayor, and shall exercise all the powers and discharge all duties of mayor during said absence, except the power of appointing to or discharging from office in the city government."

Respectfully,

WARD BONSALL,  
City Solicitor.

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. McArdle arose and said:

Mr. President: Among the papers reported from the Committee on Public Works are Bill Nos. 1364, 1457 and 1460, which are under the Act of 1895. That act, as we remember, requires the votes of seven members of Council, and the signature of the Mayor.

I have listened to the reading of the communication from the Law Department with respect to the power of the Deputy Mayor under the present circumstances, but I am doubtful as to whether we ought to assume any sub-

stantial risk in the passage of legislation as long as there might be an element of doubt as to just what is the legal status of this matter.

Under the present stated facts, and, of course, as we all know the City Solicitor will not be the determining agency if the question should arise; that it would be the Court.

Inasmuch as I am very much in favor of these three bills, I don't want to risk their passage under these circumstances, and I am going to move that they lay on the table for the present.

Mr. McArdle moved

That the bill be laid on the table.

Which motion prevailed.

Also

Bill No. 1457. CITY OF PITTSBURGH

Office of the Mayor.

September 22, 1934.

To the President and  
Members of Council.

Gentlemen:

I am returning herewith Bill No. 79, without my approval, for the following reasons:

While I appreciate fully the business reasons which prompted the Greater Pittsburgh Exposition Society to present its plans for your consideration, I am convinced that it would be a short-sighted policy to erect a \$6,000,000 building on the site of the present Exposition Building at the "Point". Five out of seven buildings of like nature erected in other great cities have never paid interest or amortization charges and two out of the seven are not paying operating expenses. This project is based upon paying all interest charges and amortizing the loan over a period of seventeen years.

I am also convinced from the reports made to your Honorable Body by the City Planning Commission, dated February 20, 1934, and June 18, 1934, that a simply impossible traffic congestion would result if this building were erected at this particular site, no matter what the final plans of the County Authority may be regarding the wharf improvement and the handling of bridge head traffic, which plans are still in the making.

But greatly transcending the above reasons is the recognition of the whole Point Area in its geographic and historic significance. The early history of our Nation was written about this spot and the City of Pittsburgh is identified throughout the Nation as the Point where the Allegheny and Monongahela Rivers unite to form the famous Ohio.

The reclamation of this area by a comprehensive park plan, which would perpetuate the historical traditions of our City, is a challenge to the civic pride of Pittsburgh. If we allow any other motive to interfere with the realization of this purpose, we are merely, avoiding the issue and postponing an inevitable responsibility.

An exposition building may be a feasible feature in the ultimate development of this area, but, before any commitment of a definite site is made, I recommend a thorough and comprehensive study be made of the whole

Point Area and suggest that the City Planning Commission be requested to prepare preliminary recommendations for the ultimate development of this area as a national memorial park, worthy of the historical and natural significance of this magnificent location.

Respectfully yours,

LESLIE M. JOHNSTON.  
Deputy Mayor.

September 29, 1934.

To the Honorable, the Council  
of the City of Pittsburgh.

Gentlemen:

Pursuant to your instructions, we have investigated the matter of the legal status of the removal of John Murphy and O. B. Hannon from the office of Assessors by the Mayor and the appointment by him to the same positions of Oscar C. Stoehr and Charles L. Brinton, and we advise you as follows:

Section 4 of Article VI of the Constitution provides:

"Appointed officers . . . may be removed at the pleasure of the power by which they shall have been appointed."

Under this, we believe the removal of Mr. Murphy and Mr. Hannon to have been valid on May 22, 1934, the day the Mayor took the action.

On July 6, 1934, the Mayor, under his power in the Charter Act, made a recess appointment of Mr. Stoehr and Mr. Brinton, and those gentlemen qualified on that date by taking the oath and filing bond. We believe that Mr. Stoehr and Mr. Brinton are entitled to salary from that date.

On July 23, 1934, Council failed to confirm or reject, but laid the matter on the table on the theory that the order of removal, by failing to give "reason", was insufficient under the Charter Act. We believe this idea to be untenable because the removal was valid under the Constitution, as above stated.

However, to correct the omission claimed, the Mayor sent a removal

letter to Council on July 30, 1934. Some question was raised as to the sufficiency of the "reason" given, namely, "for the good of the service", but it is our opinion that the rule under the Civil Service Law that "the good of the service" is not sufficient for a charge against an employe, does not apply to removals by the Mayor under the Charter Act. The Charter Act does not require the Mayor to give "good and sufficient" reasons, because no standard of sufficiency is set up. The Charter Act merely calls upon the Mayor to give "his reasons" for the removal. Even this requirement we believe to be merely directory, and not mandatory; because any removal of an appointed officer is valid under the Constitution even if wholly without stated reasons.

After the letter of July 30, 1934, by which the Mayor complied with the Charter Act, and so met the objections of Council (whether the same were valid or not), Council met in regular session on August 27, 1934, at which time the Mayor's letter of removal came officially before Council, the recess appointment being already in Council's possession awaiting action.

The Charter Act provides, in the case of recess appointments:

"... if such appointment shall not be rejected within thirty days after said Council shall have convened, the same shall be considered confirmed."

More than thirty days having now elapsed, you are advised that Mr. Stoehr and Mr. Brinton are now to be considered confirmed as regularly appointed officers.

We believe that the most that might possibly be claimed with any show of reason whatever by Mr. Murphy and Mr. Hannon is that, since the Charter Act states that the Department of Assessors "shall" consist of (now) eight members, and since they have not resigned nor consented to their removal, and since the Charter Act removal notice might be held to fix the date of effective removal, they should be paid to July 30, 1934, the date of such removal notice.

We do not believe this position to be sound, or tenable in court, but it might be wise to begin payment of

salary to Mr. Stoehr and Mr. Brinton only from July 30, 1934, leaving prior salary for possible future determination.

It is the opinion of the Law Department that there is no proper basis for refusing longer to pay their salaries, and that they can therefore safely be paid from July 30, 1934.

Very truly yours,

WARD BONSALE,  
City Solicitor.

Which was read, received and filed.

#### OFFICE OF THE MAYOR

October 10, 1934.

To the Council of the  
City of Pittsburgh.

Gentlemen:

Pursuant to the provisions of the city charter, I submit herewith the printed budgetary requests of the various departments and other agencies covering their estimated requirements for the year 1935. This, they estimate in the amount of \$23,451,946.83, the same being \$2,110,772.83 greater than the amount appropriated by your body for the year 1934.

There is also included with this budget a statement setting forth the estimated revenues of the city for the year 1935, which estimate is set in an amount of \$19,635,903.00. Thus you will note that the budget requests exceed the estimated revenues by \$3,766,043.83.

I am informed by the City Controller that if the revenues continue as favorably as they have under the excellent administration of the present City Treasurer—Mr. Jas. Kirk, the cash deficit of the city at the close of 1934 will only amount to about \$500,000.00. As you know, the deficit of the previous administration was inherited by this administration of some \$2,500,000.00

which was taken care of by the issuance of bonds in substantially the same amount. For this reason, and also for the further reason of issuing bonds, the appropriation requests for sinking funds for 1935 is almost a million dollars greater than the amount appropriated for 1934.

In estimating the revenues for 1935 of \$19,635,903.00, it was believed that the collections of current year taxes would equal the collections for 1934—assuming, of course, that the millage would be the same for both years. In other words, it is estimated in arriving at this figure that 75% of the taxes assessed will be collected. If it is your judgment that this estimate is too low in view of the prospects of better business conditions, the estimated revenues will be increased by \$180,000.00 for each percent in excess of 75%.

It is estimated that the collections of prior years delinquent taxes for 1935 will be about \$432,000.00 less than the receipts from this source for 1934. On January 1, 1934, the delinquent taxes and water rents unpaid on the city's books amounted to \$14,992,145.00.

I am informed by the City Controller that this figure on the basis of the best estimate he can now make will amount to \$17,692,145.00 at the close of this year. Accordingly, the City Treasurer will commence 1935 with slightly more delinquent taxes than he did at the beginning of the present year and for this reason it may be your judgment that by the betterment in business conditions and the continuation of an even more active campaign for collections than the efforts of 1934, the collections from this source should exceed those of 1934. Likewise, it may also be your judgment that the collections from delinquent water rents for 1935 will exceed the estimate set up in the budget by a substantial margin.

On the basis of the assessed valuation for 1934, one mill on land and one-half million buildings will produce \$873,000.00 of gross revenue, or \$854,750.00. On the basis of 75% collection. Without any increase in the revenues as estimated or without any decrease in the budget requests herein presented, it will be necessary to increase the millage for 1935 on land by 5.8 mills and on buildings 2.9 mills to balance

the budget on the basis of 75% collections.

Of the increase in budget requests for 1935 over 1934, substantially one-half must be appropriated inasmuch as the same covers the fixed charges over which the fiscal officers of the city government have no discretion. The balance of the increase in requests over 1934 are attributable in the main to the following:

- (a) Net increase — Department of Public Welfare..\$466,519.73
- (b) Net Increase — Department of Public Safety.. 454,402.35
- (c) Net Increase — Department of Public Works.. 527,690.53

With regard to these increases, I submit the following comments:

The Department of Public Welfare has in the past perhaps suffered most through the unwise and inhumane efforts on the part of previous administrations to economize. Practically half of the increase in the appropriation request is intended to provide better and more adequate food rations for the patients at the City Home and Hospitals and also to take care of the expected further increase in food prices. Likewise, the equipment at the institutions has been neglected which accounts for a portion of the increase in appropriation over 1934. As you know, the personnel of the institution has been carefully classified and your body has already granted additional appropriations for the last few months of 1934 for increased and very much needed personnel.

With regard to the increase in the Department of Public Safety over 1934, practically 80% is due to the Bureaus of Fire and Police and represents the increase of personnel in the Bureau of Police and the stepping up of the annual rate of Police and Firemen by reason of an added year of service. As you know, a very substantial increase in the cost of administering the Bureaus of Police and Fire is due to the action of the former administration in the passage of ordinance providing for the allowance of a weekly pass day with compensation. The motorized equipment of this department is in very bad condition, is lacking of uniformity and thus efficiency of operation is greatly reduced. Likewise, the

present equipment is entirely inadequate and unsuitable—and accordingly an increase in appropriation over 1934 is most necessary. Added and more efficient equipment should result in substantial economies and added efficiency.

With regard to the increase in the Department of Public Works, the bulk of the increase is needed in the Bureau of Highways and Sewers for major repairs, the operation of the Asphalt Plant, the improvements to boardwalks and steps, and the providing of additional funds for the cleaning and repairing of highways. In view of the very substantial investment by the city in its various streets, the amount of expenditures towards the improvement and maintenance thereof is quite small. Any economy in this respect may result in a future substantial loss in restoring a capital investment. An increase in the appropriation for Parks and Recreation is due in a large measure to the flagrant neglect in the past in providing and maintaining sufficient and proper supplies and miscellaneous equipment for the maintenance of the park property and its operation. The physical property has been allowed to deteriorate through lack of proper maintenance with the result that we now find it necessary to take care of that which should have been taken care of in past years.

In comparing the requests for 1935 with those of 1934, some consideration should be given to the increase in the price level of commodities that has taken place during the last few months and from present indications will continue into 1935. Likewise, in considering any revision downwards in the rate of compensation for 1935, this fact should be taken into consideration as a factor in the cost of living.

The water produced by the city is sold upon the basis of meter rates and flat rates. It may be your judgment that the flat rate should be revised in line with present increased cost and thus provide an additional revenue from this source.

The various departments have furnished me with detailed explanatory notes with reference to their requests

for 1935. As an aid in passing upon their requests, I am sending you herewith this data in the form in which it has been furnished to me.

Very truly yours,

WM. N. McNAIR,  
Mayor.

#### DEPARTMENT OF ASSESSORS

October 15, 1934.

Hon. Robert Garland,  
President, City Council.

Dear Sir:—

With reference to Bill 1910, I desire to make the following explanation for the information of City Council.

Since the first of the year it has been necessary for the Department of Assessors to have the services of several extra clerks to perform the additional work involved in connection with the handling of an extraordinary volume of appeals from assessments.

In order to thoroughly investigate the merits of all such appeals and to avoid litigation as far as possible, this work has been continued somewhat longer than originally anticipated and is not

yet quite finished but will be completed by the end of October.

I would therefore respectfully request that City Council authorize the employment of a maximum of three extra clerks at the rate of \$4.50 per day for the months of September and October, with the understanding that the services of these extra clerks will be dispensed with as soon as the work involved can be finished.

It was necessary to present Bill No. 1910 to Council for the reason that my attention was not called by the Controller's Office to the need for further authority until a period of time had been served and further delay was occasioned by the necessity of revising the ordinance first offered.

Respectfully yours,

P. R. WILLIAMS,  
Chief Assessor.

Which was read, received and filed.

This position was created by Council, and I think it is not only within the right, but might be interpreted as the duty of Council, to inquire into any move of a department head which has the effect of disturbing the carrying out of a policy of the City for which the Council passed legislation, and which in a marked degree affects the efficiency of any person engaged in a particular position created by Council.

CITY OF PITTSBURGH

Office of the Mayor

October 22, 1934.

To the President and Members of Council,

Gentlemen:—

I have the honor to inform you that I have appointed, subject to your approval, Alfred H. Hirsch, 1814 Murdock street, to the position of Police Magistrate, to fill the vacancy caused by the resignation of Howard B. McNutt.

Respectfully yours,

WM. N. McNAIR,  
Mayor.

Which was read.

Mr. Huston moved

That the communication be referred to the Committee on Finance.

Mr. Demmler arose and said :

Mr. President:—Under remarks, I would like to state that I am ready now to vote on this appointment. In view of the fact that the budget recently submitted to Council calls for only four magistrates for 1935, I don't see why five magistrates are needed for only two months remaining of this year. If four are only needed next year, why does the Mayor desire five at this time?

The Chair said:

The law states that the Mayor cannot appoint more than eight nor less than five police magistrates.

Mr. Huston arose and said:

Mr. President:—The reason for making the motion to refer the communication to the Committee on Finance is this: I hold in my hand an excerpt of the court record of Alfred Hirsch. It states that on June 1, 1928, he was paroled five years and fined \$500.00, and forbidden to serve on an election board for a period of five years. I think it should be referred to committee to give the man an opportunity to defend himself. For that reason I made the motion.

And the question recurring, "Shall the communication be referred to the Committee on Finance?"

The motion prevailed.

MOTIONS AND RESOLUTIONS.

The Chair, at this time, presented  
No. 2141.

November 2, 1934.

To the President and Members  
of City Council.

Gentlemen:—

I am returning herewith, without my approval, Bill No. 1980, an Ordinance relating to the Liberty Tubes Plaza, for the following reasons:

FIRST. This Ordinance appears to be an attempt by the Council to enter into a contract with the Allegheny County Authority for one of the very important units of the public improvements contemplated in the Loan Agreement between the Authority and the United States Government, namely, the project known and recognized as the Liberty Tubes Plaza.

The Government Plan, as set forth in the Loan Agreement designates primarily nine various public improvements to be worked out through the Authority, of which the aforesaid improvement is the first to be taken up by the Authority and the City; as there are a number of others of as great or even greater importance involving the City of Pittsburgh and its public works, property and rights which will doubtless come up in the future, I have therefore expressed, and do hereby express in this, my disapproval of the Ordinance at some length.

The Loan Agreement and Plan, as entered into between the Government and the Allegheny County Authority, expressly and necessarily provides for the execution of a Maintenance Agreement between the Allegheny County Authority and the various municipal corporations affected by such plan, including the City of Pittsburgh; and the plan expressly requires that, "prior to the first purchase of bonds," the Allegheny County Authority "will have entered into agreement . . . with the City of Pittsburgh."

The Ordinance is evidently intended by Council as, and is, an attempt by it, on its own initiative without reference to any interest of the Mayor and the Law Department of the City to comply with the requirements of the plan and enter into such a "maintenance

agreement." Such action I deem not only contrary to law, but highly improper, inimical to the interests of the people of Pittsburgh, and certainly disrespectful of their chief executive.

Undoubtedly, all contracts entered into between the City of Pittsburgh and others require their preparation by the Executive Department of the City Government, presumably its Law Department, the approval of the same by the Council, and the signing of the same by the Mayor, which requirements in this instance the Council seeks to ignore.

Considering the very great importance of this plan and project, the matter has been and was referred by Council and also by the Mayor to the Law Department; and the City Solicitor has heretofore prepared at the request of Council a formal, technical and proper contract in his estimation, covering this subject. The same, I understand, has been sent, or is ready to be sent, to the Council; not, however, does it necessarily follow that the same would be signed by the Mayor. However, such formal contract was prepared by the City Solicitor after various consultations with the Authority and its representatives, the County of Allegheny and its representatives, the Engineering and other Departments of the City; and numerous concessions were secured from the Authority and others, and many valuable protective measures incorporated therein for the benefit of the City. And such form of contract is of very much greater value, covers a much wider range, protects the City to a greater extent, and puts the matter in more proper legal form, than this Ordinance which is now disapproved by me. Were there no other reasons than above set forth for such disapproval, I think they would be sufficient.

SECOND. The Ordinance surrenders to the Allegheny County Authority property at the south end of the Liberty Tubes and belonging to the City of Pittsburgh of very great value. It provides for the construction of great public works and the maintaining of the same after such construction, all of which may last for a period of at least thirty years and possibly forever. It provides for no control, supervision or direction of such construction or

operations by the City of Pittsburgh or its officers and agents. It gives possession of the most active, useful and valuable highway entrance to the City of Pittsburgh from the South absolutely to the Allegheny County Authority, which, as you know, is composed of three persons selected by the Commissioners of Allegheny County. It provides for "setting over the right of possession OR OTHER RIGHT" to the Authority, without explaining or limiting what such "other right" may be. It provides for the absolute conveyance of all right, title and interest of the City in such property or acquired by the City through condemnation proceedings or otherwise, to such Authority. Such land, property, rights, etc., undoubtedly would be worth millions of dollars.

It provides that the City "shall not be under obligation in condemnation proceedings for damages until, IF REQUESTED BY THE COUNCIL, the County of Allegheny shall agree to indemnify the City, etc." This is not indemnification which is sufficiently absolute or positive, and endangers the City to great financial loss.

In Section 5, it provides for heavy burdens in work, time, expenses, etc., on the part of the City, in securing Public Utility Companies to make relocations, etc., and the service of all notices by the City, prosecuting and defending all such proceedings, all to be done at the Authority's cost and expense without provision or detail as to how such costs, expenses, effort, time, etc., on the part of the City are to be computed and the cost collected.

Section 6 of the Ordinance provides and contemplates the ultimate conveyance and transfer of all of this great improvement to the County of Allegheny, thus eventually securing for the County of Allegheny property, rights, franchises, etc., belonging to the City worth millions of dollars, without any compensation whatever therefor to the City of Pittsburgh.

THIRD. As before expressed, this is a main highway to and from the City of Pittsburgh, and undoubtedly requires traffic control, due to the greater extent and more intricate character of its traffic, than any other highway entering or within the City. In Section

6 of the Ordinance, there is "Conferred and imposed upon the Authority the right and duty, at its own expense, to maintain the necessary traffic control in connection with the completed improvement," "to provide the necessary illumination thereon," etc., without designating specifically and in detail the meaning of such phrases. This obviously eliminates the police and traffic officers of the City of Pittsburgh from any responsibility or duties whatever on this highway.

Of necessity, the highway must be policed and the traffic properly managed; and to do so would require a police force under the Authority, with the powers of policemen of the State, County or City—for instance, the power to make arrests, etc. Where or by what Act of Assembly is such power of employing private policemen vested in such Authority? Not only does such a plan jeopardize the safety of the public, but is confusing and dangerous.

For the construction, replacement, repair, etc., of the City's sewers and other underground facilities, entry upon the property could only be secured by the City and its employees after written permission therefor should be issued by the Authority, thereby giving the Authority full control and the privilege of refusing such permission if it so desires. Such entry by the City might be absolutely necessary, immediately and without delay, in order to avoid great loss and serious consequences.

FOURTH. The Ordinance practically excludes from participation in this improvement the City's Department of Public Works and its engineers, thereby greatly endangering the rights of the City which are certainly necessary for its protection. The form of contract of the City Solicitor provided for such inspection and approval of the work and the plans by the Director of the Department of Public Works, and certainly such idea should be incorporated in such Ordinance and contract.

There is no guarantee of the work on the part of contractors provided for in the Ordinance, which also is set up and provided for in the contemplated form of contract prepared by the City Solicitor.

The form of contract of the City Solicitor also provides for the regula-

tion of traffic during the period of construction, and the preparation of a schedule with the co-operation of the Departments of Public Works and Public Safety of the City, which certainly is necessary and a wise regulation.

The form of contract prepared by the City Solicitor also provides that collection of tolls be limited to traffic using the plaza as a means of entrance to or exit from the Liberty Tubes, and limits the toll to a five-cent rate, and provides for equalization of such schedules between the Liberty Tubes and Fort Duquesne Bridge and Tunnel. The City Solicitor's form of contract also provides for final elimination of the plaza tolls, and the payment of the debts and obligations by the City at any time. There is no provision in the Ordinance for the tolls, fees, etc., ever ending, and, so far as this Ordinance is concerned, they might endure forever.

The form of contract prepared by the City Solicitor contains many other valuable provisions in protection and aid of the City and the project itself, all of which are concessions agreed to by the Authority in consultation with the Law Department, and none of which is incorporated in this Ordinance.

FIFTH. In general, the Ordinance is prejudicial to the City's rights and interests, and extremely dangerous in its resulting effects, and is an attempt on the part of the Council to exclude entirely the administrative branch of the City Government from entering into a formal, legal contract with the Allegheny County Authority—a usurpation of the rights of the chief executive of the City, the Mayor. It is not a legislative enactment in any sense, and is therefore subversive of good government, being in violation of the Charter of the City and against the constitutional and fundamental laws of the country and the states, wherein the executive, legislative and judicial branches of the Government are kept separate and distinct.

SIXTH. In conclusion, as Mayor of the City of Pittsburgh, I take the liberty of suggesting to the Council, that through the enactment of this Ordinance it indicates failure to fully and completely understand the unusual and grave character of the idea and enterprise proposed and which deeply in-

volves and affects the people of Pittsburgh in their financial, sectional, political and material well-being. The complete general plan, as set out in the Loan Agreement made between the Government of the United States and the Allegheny County Authority, involves an unusual, novel and new principle in governmental activities, which has heretofore not been used in the United States. It seems to me that the idea of the plan deserves very serious consideration. Here is an attempt and an actual plan of invasion of the local government rights, to-wit, those of the City of Pittsburgh, the City of McKeesport, the County of Allegheny, etc., by injecting the authority and power of the Federal Government into local activities and excluding the local governments from participation therein except to pay the cost thereof.

The placing in power of three civilians under the guise of a corporation, such civilians being private individuals, unknown to government and public life, irresponsible to either the people or superior governmental officers except the Federal Government to a small extent, is such an unusual and novel principle that it should be given some attention, and particularly when such activities place in their hands almost unrestricted power and the expenditure of some \$24,000,000.00, the acquisition of great tracts of property, the erection of enormous public works, and retention of the same for a long and indefinite period of time.

For its own protection, it would appear that Council and the members thereof, individually and collectively, should therefore consider most extensively and intimately the results of the measures proposed in the plan and the ultimate effect upon the Council, individually and collectively, of the pursuit of such measures. Undoubtedly, in the near future, should these operations commence and be continued, the people will awaken to the grave character of the situation and may have a critical spirit or attitude towards any who have furthered the situation. The Ordinance herewith returned, it is true, contemplates the commencement of only one of the nine proposed public improvements, to-wit, the Liberty Tubes Plaza. If this Ordinance is enacted, following it will come other public

works, to-wit. Pittsburgh-Homestead High-Level Toll Bridge, Highland Park Toll Bridge, Fort Duquesne Toll Bridge and Tunnels, Glenwood Toll Bridge, Banksville Road and River-Front Improvements along the Allegheny and Monongahela Rivers. All of these involve the surrender by the City of real estate, property and interests worth millions of dollars—a value which it is impossible to compute at the present time.

As an instance, does the Council realize that the plan proposes the actual taking over, control, ownership and management of the City Wharves? This, under the River Front Improvements, means the Monongahela Wharf between Grant Street and Penn Avenue and the Allegheny Wharf between the Ninth Street Bridge and Barbeau Street; all, in fact, of the downtown river frontage, is to be given up by the City to the three men appointed by the County Commissioners and who are incorporated and who will actually own, maintain, operate and control these water fronts in the downtown districts of the City of Pittsburgh.

Considering such proposed activities, such serious losses and concessions to be made by the City, I particularly call the attention of the Council to these matters in explanation further of my disapproval of this Ordinance.

The Ordinance is returned to your honorable body disapproved.

Respectfully yours,

WM. N. McNAIR,

Mayor.

Which was read, received and filed.

Mr. Mugee moved

That the Clerk of Council be directed to inquire from the Mayor whether he will execute the contract prepared by the Law Department under the original ordinance.

Which motion prevailed.

The Clerk (Mr. Clark) upon being directed by the Chair, in accordance with the said motion, interviewed Hon. William N. McNair, Mayor, and then returned, and reported to the Council. He reported:

Mr. President: In accordance with your instruction, I delivered the message to His Honor, the Mayor, and he replied that he was opposed to

tolls on general principles. He stated that his reasons for vetoing the ordinance were cited in his message to Council. The Mayor is in a cabinet meeting, but he would be pleased to have the City Solicitor appear before Council and explain exactly what he means. The Mayor further stated that he is opposed to the things enumerated in the contract, but the City should get the best it can out of a bad bargain. In other words, he is opposed to tolls. In effect the Mayor's answer is that he would not execute the contract.

Bill No. 1980. An Ordinance entitled, "An Ordinance evidencing the consent of the City of Pittsburgh to the entry upon and use by Allegheny County Authority of portions of West Liberty avenue, Pioneer avenue and Saw Mill Run boulevard, and such other streets and alleys as may be affected thereby, for the purpose of reimproving said West Liberty avenue, Pioneer avenue and Saw Mill Run boulevard and constructing and operating a grade separation and plaza at the intersection of said West Liberty avenue and Saw Mill Run boulevard, in conformity with a certain plan; prescribing the terms and conditions of such consent, entry and use; transferring to Allegheny County Authority title to lands and said improvement when completed; providing for the ultimate conveyance of said lands and improvement to the County of Allegheny; and providing for the enactment by the City of Pittsburgh of any and all legislation necessary to make effective such consent, terms, conditions, entry and use, and necessary or desirable to acquire for Allegheny County Authority the land and interests therein required for the improvement and necessary or desirable to require all public service companies, public utilities and private parties at their own expense to make all changes that may be necessary of and in relation to the property and facilities respectively owned by them."

In Council, October 24, 1934. Bill as read a second time and amended, agreed to, read a third time and finally passed.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Mr. Anderson arose and said:

Mr. President: When the consent ordinance was first introduced and considered by Council I was absent because of sickness, and feeling that it was my duty I came back and voted to override the Mayor's veto. I don't think there is a member in Council who has upheld the Mayor more than I have on his appointments.

A question arose in my absence as to the legality of my vote on this ordinance. I feel that I am perfectly clear on it. It is not a question of what I should or should not do; it is a question of duty. It happens that my sister is a part of an estate that owns property in the line of this improvement. The Wallace Act was quoted in regard to my voting. I am familiar with city law and as far as I am concerned there has never been a person in Council to protect the City in its contracts as I have, and I believe that I know something about the laws governing the award of contracts. Therefore, I welcome any court procedure that would involve my rights or duties as a member of Council in voting on that veto.

I assure the members of Council that if I were present when the ordinance was first introduced I would have voted in the affirmative, the same as I did on the first veto, and which I intend to do today on this veto.

If I may say it and be in order, Mr. President, my entire life has been devoted to labor problems. I mean by that, the employment and better conditions of the working people of these United States. I always felt that that was a sacred duty which I should never shirk, and I have been faithful to that principle all my life.

I also wish to be put on record, as the Mayor has, that I am opposed to tolls. I feel that, under the circumstances, the automobile is taxed again. Surely, it must be the opinion of all of us who live in the city that if the automobile is taxed on a proposition of this character, that we will agree that the street car rider is taxed; and I believe that every man in this Council is for a lower street car fare. It is a perpetual tax for at least 90 to 98 per cent of the working people who must ride to and from their place of employment.

And if it is not a tax, I don't know what a tax is. I believe it is the wish of the Council that we can, perhaps, some day, arrive at a solution for a tax of that kind.

I want to emphatically say that I hold it as a sacred duty, through my affiliation with the labor movement, that I am in duty bound to assist and carry on the work on which I have spent almost 35 years. And I want to say this, that during the last year, I had, perhaps, opportunities that were not afforded to many people who are interested in problems of this kind, to observe what is being done in other communities to help relieve the distress among the working people by providing funds for public improvements.

Just a few weeks ago, at the convention of the American Federation of Labor in San Francisco, the interests of millions of working men and women were represented. In that city alone the Government is building two bridges. They don't know what the depression is. Although they are very selfish about their natives, yet it was very nice for the men interested in the labor movement to import workmen into that city. Two bridges alone are costing the Government nearly \$200,000,000. We all realize the number of working people and the amount of work that can be done when large sums of money are spent in any locality. Not only there, but throughout the entire country the same condition exists. Surely we all realize what is going on through the Middle West. Also through the Southern States.

Let me quote a few of the figures from yesterday's New Work Times. The Governor of Virginia, or the Senator of Virginia, Mr. Byrd, who has sat in his office during all this campaign and didn't campaign for the office to which he is now seeking to be re-elected, stated publicly that he had done his share for the State. There the Government is spending over \$200,000,000 in public improvements. Who is going to pay this money but the people living in the thickly populated States? The same thing applies to Governor Ritchie of Maryland. On my trip throughout the State of Nevada the Government has expended large sums of money, and that money will only be returned by about 10 per cent of the population

effected, and the balance, or 90 per cent will be paid by the people living in States like New York and Pennsylvania. Out there they don't know there is a depression. They did it during the period of prohibition. If you would stop in Reno, Nevada, you would think you were in some foreign country. Who pays for these things? For hundreds of miles they have roadways built by the Government. In the entire State there are only 93,000 people—not one-seventh the number of people who live in the City of Pittsburgh.

I am quoting these figures to show, Mr. President, that with these \$24,000,000 which they propose to spend in this District, is not comparable to the amounts the Government is spending in less thickly populated districts. This, also, in comparison to the amount of \$250,000,000 paid in taxes by the people of Pennsylvania.

I don't believe it is necessary to dwell on the question of tolls. I am opposed to tolls.

Although that is part of the question before us, yet it is not the important question. The big thing is to get these improvements started so as to place the unemployed back to work. My whole life has been devoted to the welfare of the working people.

Quoting further from the New York Times, in the entire United States, four States are appealing to the people to vote on bond issues to the amount of \$134,000,000. In the City of New York the municipal authorities are asking the voters to approve a bond issue of \$60,000,000 for public improvements, to assist the unemployed. That is what you will have to do in Pittsburgh if you don't get help from the government. In the same newspaper is quoted a statement that over \$200,000,000 is being spent in the State of Missouri.

This is the first Government grant allowed for Allegheny County; and if it is not spent here, it will be spent in some other locality, in the South or West; and most of the money will be paid back by people living in States like Pennsylvania.

Surely this district is entitled to the amount allowed by the Government in view of the fact that in a locality like San Francisco there are two public projects now under construction costing nearly \$200,000,000.

Getting back to the toll question, surely it is not a large fee for the automobilist to pay. It is nothing to pay a Dollar to get across rivers in the West. It is not to the benefit of the people who live there. It is like a war debt. If the Government would release any of the States from the payment of these grants, surely they will release the State of Pennsylvania, and particularly Allegheny County. I don't think there should be a perpetual assessment on these improvements.

Let me say this, in conclusion, the Government is spending \$25,000,000 in San Juan Harbor to take care of their people. It is more than they are giving to this County. I don't blame the Government. If we don't ask for it, it will perhaps go to such districts as San Juan; and if it does go there, we will pay for it.

I want to make my position clear on everything I have said. As I said in the beginning, if I were present when this ordinance originally came up in Council, I would have voted for it. I am not taking advantage of the Mayor or any member of this Council. I am merely carrying out my duty as a member of Council. I believe it is my duty to vote on the proposition.

Mr. McArdle arose and said:

Mr. President: I want to say that it is my intention to vote NO on the pending ordinance, as to whether this bill shall become a law notwithstanding the objections of the Mayor, and I merely want to reiterate what I said on the former bill, and that is, that my objection is solely upon the basis of the imposition of tolls upon a public improvement which has been in existence and in use for some 10 or 12 years and between 30 and 40 per cent paid for. What I say about this, has nothing to do with what I may do upon other projects placed in the hands of the Allegheny County Authority. It has nothing to do with the alleged reasons set forth in this long veto message.

And the question recurring, "Shall the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Anderson  
Gallagher  
Huston

Kane  
Magee  
Garland, (Pres't)

Noes:—Messrs.

Demmler

McArdle  
Soost

Ayes 6. Noes 3.

And there being two-thirds of the votes of council in the affirmative, the bill became a law notwithstanding the objections of the Mayor.

No. 2143.

OFFICE OF THE MAYOR

October 30, 1934.

To the Council.

Gentlemen:

Bill No. 1786, being a proposed ordinance transferring the appointment of four clerks and four typists attached to Traffic Court from the appointment by the Mayor to appointment by the Controller, and one Cashier-Clerk from appointment by the Mayor to appointment by the Treasurer is herewith returned without my approval, for the reason that it is obvious that this transfer will assure that which it is intended to eliminate.

The employees now provided for carrying on the work of Traffic Court are:

1 Chief Clerk  
1 Assistant Chief Clerk  
1 Cashier-Clerk  
Four Clerks  
Four Typists

These are all appointed by the Mayor, so that unified control of operations is possible. That these employees have not functioned satisfactorily has not been due to improper organization adjustment, but to other causes not necessary to analyze here. The proposed ordinance would but add improper organization to an already confused situation. It would leave the executive positions of chief clerk and assistant chief clerk as Mayor's appointees, while placing the appointment of the four clerks and four typists, who must necessarily work under the direction of the Chief Clerk and the Assistant Chief Clerk, in the Controller. Also, the Cashier-Clerk would be appointed by still a third appointing power, the City Treasurer.

Traffic Court could not long exist as a unit of law enforcement under these conditions:

First, because the conflict of authority would irreparably degrade the morale of the office force. Appointments and assignments of duties would be directed by one department, while paradoxically another department would be paying an executive salary to another to assign other duties.

Second, this transfer would place three separate and distinct departmental groups without any directing head present at any time. The efficient management of the Court would cease to exist at the induction of this system of remote control.

Whatever shortcomings may have heretofore existed at Traffic Court, it can hardly be doubted that such a three-way division of the appointing power is certain to lead to confusion. A unified appointing power can be made to function satisfactorily; but no person could seriously contend that a group of 11 employees who are appointed by three different authorities could for long function as a cohesive unit.

It is submitted that the work of Traffic Court is too important and in-

volves too much, to be made the subject of an experiment in disorganization, as this Bill proposes.

Very truly yours,

WM. N. McNAIR,

Mayor.

Which was read, received and filed.

Also

Bill No. 1786. An Ordinance entitled, "An Ordinance amending a portion of Section 4, Mayor's Office, and supplementing Sections 6 and 7, Department of City Controller and City Treasurer, respectively, of an ordinance entitled, 'An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh and the rate of compensation thereof,' which became a law March 29, 1934, and the various amendments thereof and supplements thereto."

In Council, October 22, 1934, Bill read, rule suspended, read a second and third times and finally passed.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objection of the Mayor?"

Mr. Magee arose and said:

Mr. President: This veto message, like the last one, contains an admission that this legislation is necessary. In the Liberty Tube Plaza case the contract would be a much better way to enter into the relationship with the Allegheny County Authority, but the Mayor will not sign the contract. He wants us to pass the contract but refuses to execute it.

In this case, he says that these employees have not functioned satisfactorily for "causes not necessary to analyze here." If he would tell us why his appointees did not function, and promise to compel them to do so, his veto should be sustained.

I believe there ought to be a single force operating under a single head. That is in accord with true principles of organization; but there is an admission that the force as now organized is not efficient for the purpose for which they are employed. What can we do in this case except to pass this measure? It will effect some kind of efficiency—not the highest possible, but something.

And the question recurring, "Shall

the bill become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

WHEREAS, The Housing Division of the Public Works Administration of the United States of America has offered to finance one or more housing projects within the limits of the City of Pittsburgh, for the purpose of aiding in the improving of living conditions, the elimination of slum districts and increasing employment; and,

WHEREAS, Certain voluntary organizations and citizens of this City have devoted much time and thought to a housing program involving slum clearance and slum reconstruction; and,

WHEREAS, Its merit is such that all the aid the City of Pittsburgh can give to the projects that may be approved should be given; Therefore, be it

RESOLVED, That the City of Pittsburgh hereby endorses the contemplated housing program now under consideration by the Housing Division of the Public Works Administration of the United States of America, and will do everything within its power to aid the same, and recommends to Col. Horatio B. Hackett, Director of the Housing Division of the Public Works Administration of the United States of America, his prompt and favorable action thereon.

Which was read.

Mr. Kane moved

The adoption of the resolution.

Mr. Kane arose and said:

Mr. President: I would like to offer this suggestion, that if this reso-

lution passes, we call upon Mr. George E. Evans, Superintendent of the Bureau of Building Inspection, to formulate the committee that we agreed to in our discussion with Mr. Winston and officials of the Housing Committee.

The Chair said:

I thought it would be part of the resolution.

Mr. Kane said:

Mr. President: It was not included in the resolution. Mr. Evans has given some time and study to this problem and he can call upon the housing people who will bring about the results desired under this resolution.

And the question recurring on the adoption of the resolution.

The motion prevailed.

Mr. Magee moved

That Hugo N. Noren be invited to attend the meeting of the Finance Committee on Wednesday relative to his appointment as a member of the Board of Property Assessors.

Which motion prevailed.

Mr. Huston presented

No. 2147.

WHEREAS, By reason of charges made in open hearings of this body by reputable citizens, it has come to the attention of Council that acts and practices detrimental to the City's welfare and which may be in violation of the Charter Act, are being engaged in by the Department of Public Works, or those in charge thereof, in the conduct of the City' business;

NOW, BE IT RESOLVED, That, pursuant to the authority in Council vested under and by virtue of the Acts of Assembly in such cases made and provided, Council, acting through its Committee of Public Works, resolve itself into a Committee of investigation for the purpose of examining into the charges heretofore made, and acting thereon, in conformity with such evidence as may be such investigation disclosed; and

BE IT FURTHER RESOLVED that for such purpose of investigation, said Committee be authorized to call upon the Law Department of the City for its cooperation and assistance, and to accept

the assistance of responsible volunteer counsel; and

BE IT FURTHER RESOLVED that for the purpose of facilitating such investigation, the President and Clerk of Council, under the seal of the City, be authorized and directed to issue subpoenas, addressed to witnesses, directing their attendance at such investigation.

Which was read.

And on motion of Mr. Soost, referred to the Committee on Public Works.

Mr. Kane arose and said:

Mr. President:—Before Council adjourns, I wish to make a statement. I want to talk about the dismissal of Director Dunlap.

We know from the records that Mr. Dunlap has been dismissed. The reason given for his dismissal was that the Mayor dismissed him at the request of Mr. Huston. I will say that the Mayor's advisors are passing out stories that are hardly fair to Mr. Dunlap; they state that the reason he was dismissed was because of the award of a contract for Ford automobiles for the police department. I don't think it is fair to Mr. Dunlap.

This is a serious charge. I would say that some members of Council, at the time the contract was being considered, questioned the language of the specifications, which we believed had the consent and full knowledge of the Department of Public Safety.

I think we should have a definite report from the Mayor's office, because

if Mr. Dunlap was dismissed for that reason the public should know it, and if it is not true. Mr. Dunlap should be given an opportunity to make a public statement denying these stories that the Mayor's advisors are circulating. It is not right that they should whisper about these stories that are a serious charge against Mr. Dunlap.

The Chair said:

It is largely rumor. It is hearsay.

Mr. Kane said:

It is not hearsay as far as I am concerned.

The Chair said:

What action do you desire to take?

Mr. Kane said:

I would ask that Mr. Dunlap be invited to appear before the Finance Committee at its next meeting and make a full statement about this matter.

Mr. Kane moved

That Col. W. R. Dunlap be asked to appear before the Finance Committee on Wednesday next relative to his resignation as Director of the Department of Supplies.

Which motion prevailed.

Mr. Soost moved

That the Minutes of Council of Wednesday, October 24th, and Monday, October 29th, 1934, be approved.

Which motion prevailed.

And there being no further business before the meeting, the Chair declared

Council adjourned.

Bill No. 2042. An Ordinance entitled, "An Ordinance providing for the letting of a contract or contracts by the Mayor and the Director of the Department of Public Health for the collection, removal and disposal of garbage and rubbish within the limits of the City of Pittsburgh for a period of one year, or such part thereof as may be necessary, from January 1st, 1935."

In Health and Sanitation Committee, November 8, 1934, Bill read and amended in Section 1 by striking out the words "or such part thereof as may be necessary," and by inserting after the words "from January 1st, 1935" the words "subject to cancellation by the City upon sixty (60) days notice in writing to the contractors," and in the title by striking out the words "or such part thereof as may be necessary," and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Anderson moved

That the amendments of the Health and Sanitation Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by Council, was read.

Mr. Anderson moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Magee arose and said:—

Mr. President:—I must vote against the amendment and also against the ordinance, as amended, on final passage for the reason that the amendment is entirely unnecessary since it

will require all of next year to construct the new incinerator plants, and for the additional reason that the amendment will tend to compel higher bidding than the companies would offer without the termination clause.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law and were:

Ayes:—Messrs.

Anderson	Kane
Gallagher	McArdle
Huston	Soost
	Garland, (Pres't)

Noes:—Mr. Magee.

Ayes 7. Noes 1.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. President: I must vote NO on this bill, because it is the beginning of a reversal of the policy of this City conserving the revenues of the Pittsburgh Railways Company in favor of more than 99 per cent of all the public who ride in public conveyances. I don't know that a 15 cent fare will reduce the patronage of the street cars; but it has a tendency towards that end. If the intent of the ordinance is to provide lower bus fare regardless of its effects in other respects, logically we ought to go to the extreme limit and make the fare just the same as on the street car.

I am firmly convinced that a competitive bus operation will react unfavorably to the mass of the public who use public conveyances. Over 99 per cent of them use the street cars. If any considerable number of them are enticed away into busses or any other competitive carrier, the effect will be to reduce the revenue of the Pittsburgh Railways Company with a consequent curtailment of service or increased fare.

Mr. Demmler moved

To amend the bill in Section 3 by striking out the word "enforcement" and by inserting in lieu thereof the word "enactment."

Which motion prevailed.

And the files, on the members' desks, having been corrected as amended, the bill as read a second time and amended, was agreed to.

#### OFFICE OF THE MAYOR

November 16, 1934.

To the President and  
Members of City Council.

Gentlemen:

I am returning herewith, without my signature, Ordinance No. 1514, regulating the matter of fireworks. This is simply another exercise of the restrictive power of government, another annoyance to the community by increasing the long list of things that are forbidden. The policy of our community and, you might say of our State, has long been to interfere as little as possible with the citizens in the conduct of their every day life. Unless some very serious reasons are given, no new restriction measures should be passed and Council should make an effort to repeal many of those which are now in the statute books.

Thomas Jefferson once said that that government governs best that governs least. The City government which follows this policy will be the most satisfactory. The best way to insure domestic tranquility is to have the average citizen as free from governmental interference as possible. When the head of a household, in a commendable

patrotic spirit, desires that his family celebrate our independence, he is not committing a crime, as his children gather about him in the evening, when he has a display of fireworks. I remember, as a young man, in some of our parks viewing with great enjoyment the fireworks display. There is nothing criminal about that. Your conscience does not disturb you if you tack a pin wheel to a tree in your front lawn and see the children amused and delighted at its display.

By this ordinance you make something a crime that is not a crime. You provide penalties for the sale of something which in itself does not bring about any pangs of conscience on the part of the merchant that handles this merchandise. There are many small stores that look forward towards the Fourth of July with a great deal of hope as the only day when they can do some business. Why make that a crime?

I deem it my duty, as one branch of the government, to continue my opposition to all these new interferences with the liberties of our people and, therefore, have returned the same without my approval.

Respectfully yours,

WM. N. McNAIR,

Mayor.

Which was read, received and filed.

Also

Bill No. 1514. An Ordinance entitled, "An Ordinance regulating the selling, offering for sale, or exposing for sale, or having in his, her or its possession, with intent to sell, use, discharge or cause to be discharged, ignited, fired or otherwise set in action, fireworks, fire crackers, sparklers, cannons using gunpowder for ignition, or other pyrotechnics, by any person, firm or corporation within the limits of the City of Pittsburgh, and providing penalties for violation thereof."

In Council, November 13, 1934, Bill read, committee amendment agreed to, rule suspended, read a second and third times and finally passed.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objection of the Mayor?"

November 19, 1934.

President and Members of Council,  
City of Pittsburgh, Pa.

Gentlemen:

An emergency has arisen in the water supply to the South Side and Triangle areas which requires immediate action. A break has occurred in the 36-inch water line crossing under the Monongahela River at 34th Street. This, together with the fact that the 42-inch main on Smallman street is torn up for replacement, leaves only one supply feeder to the Downtown and South Side districts. A break in this one line would produce a water famine in these important districts.

To prevent this disaster it is necessary to proceed quickly with repairs to the above mentioned 36-inch steel pipe line under the Monogahela River at 34th Street.

These repairs will require a derrick boat, diver and equipment and other facilities and equipment which the city does not have and can obtain quickly only by contract or contracts for doing the necessary repair work.

We, therefore, declare that a serious emergency exists by reason of the above outlined conditions, and earnestly request that you approve and pass emergency appropriation today.

Yours very truly,

WM. N. McNAIR,

Mayor.

Approved by,

JAMES P. KERR,

City Controller.

November 20th, 1934.

President and Members of Council,  
City of Pittsburgh, Pennsylvania.

Gentlemen:—

The specifications for the collection, removal and disposal of rubbish and garbage in the City of Pittsburgh for the year 1935 have been somewhat revised due to our experience with the specifications during the year 1934.

Since the contract ordinance of Council authorizing the Mayor and the Director to advertise and award contracts with a sixty day cancellation clause for the year 1935 states that the specifications are to be approved by Council, it is necessary to have the consent of Council on the revisions before proceeding with the advertisements. These revisions are possibly of minor importance, but nevertheless are desired by the Department of Public Health.

We respectfully request, therefore, the approval of City Council of the attached list of changes in the specifications.

Very truly yours,

RAY P. MOYER, M.D.,  
Director.

Revision of specifications for the collection and removal of rubbish in the City of Pittsburgh for the year 1935.

Add to Paragraph 3, Page 2, the following:

Add to Paragraph 4, Page 2, the following:

"The term 'Rubbish' wherever it occurs in these specifications means all paper, pasteboard, rags, old clothing, old shoes, old rubbers, leather, carpets, broken glass, crockery, bottles, straw, excelsior, floor sweepings, boxes, barrels and broken parts thereof, tin cans, Christmas trees, leaves, grass cuttings (exclusive of trees and trimmings of trees) and household refuse generally, exclusive of garbage, ashes, dirt, old metal, stoves, boilers, pipe, bed springs, furnaces and refuse from repairs of buildings or equipment."

Add after the word "condition" on second line of Paragraph 7, Page 3:

"and at all times protected against rain or moisture."

Add to Paragraph 8, Page 3, the following:

"The Director or his authorized representative shall be permitted to examine the vehicles and contents at any time or place."

"Before recommending an award the Director of the Department of Public Health will require the successful bidder to have obtained from the Commissioners of Allegheny County plant licenses as called for under the Act of Assembly approved May 25th, 1923 (P. L. 1041). The Director of the Department of Public Health will further require before awarding a contract that the successful bidder have obtained from the Commissioners of Allegheny County a transportation license for the transportation of garbage as called for under

No. 2348.

November 28, 1934.

To the President and Members of  
City Council.

Gentlemen:—

I am returning herewith Ordinance No. 2165, without my approval, for the following reasons:

The passage of this ordinance takes away from the Magistrate in Traffic Court the last of his clerks. It is impossible to perform the duties placed upon the Magistrate by the Charter unless he has his own clerks. He has no assurance whatever that the clerks furnished him by the Controller will carry out his judgments or enter up his decisions in a proper manner. It is necessary for the Magistrates to appoint their own clerks and the Court simply cannot function when an outside authority names these clerks and holds them responsible to him and not to the orders of the Magistrate.

Respectfully yours,

WM. N. McNAIR,

Mayor.

Which was read.

Also

Bill No. 2165. An Ordinance entitled, "An Ordinance amending a portion of Section 4, Mayor's Office, and supplementing Section 6, Department of City Controller, of an ordinance entitled, 'An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh, and the rate of compensation thereof,' which became a law March 29, 1934, and the various amendments thereof and supplements thereto."

No. 2349.

CITY OF PITTSBURGH

Office of the Mayor

November 30, 1934.

To the President and Members  
of City Council.

Gentlemen:

I am returning Ordinance 2203, without my approval, for the following reasons:

The \$1,000.00 appropriated for this housing exhibit could very well be used for more pressing needs of the city in view of the deficit which we are now facing.

Since that part of the program of housing, which utilizes the aid of the Federal Government has not been formulated for Pittsburgh, I believe it would be more advisable to use this money to aid Pittsburgh in securing help for our own slum areas, in order that we may have an exhibit pertaining to Pittsburgh. This exhibit could well be used in case it was not to cost the city any money but, if we have to appropriate money to handle it, I do not think it would be worth the appropriation.

I understand that this exhibit does largely with the New York problems and, due to the fact that the solutions for New York would not be entirely applicable to Pittsburgh, I doubt the value of spending this money at this time.

The purpose of this exhibit is to arouse an interest in building new homes for our people. My thought on that matter is that it would be better for Council to pass the ordinance which I introduced shortly after being inaugurated, relieving new houses from taxes

for a period of ten years and thus doing something practical for the home builder. We could also use the City lots for the purpose of building homes as I have suggested heretofore. Further, an increase of three or four mills City taxes on vacant land would put some building sites within the reach of the ordinary speculative builder, which now are not available for his operation.

Respectfully yours,

WM. N. McNAIR,  
Mayor.

Which was read.

Also

Bill No. 2203. An Ordinance entitled, "An Ordinance making an appropriation for the purpose of exhibiting in the City of Pittsburgh, at the Carnegie Institute, Department of Fine Arts, the Housing Exhibit of the City of New York."

In Council, November 19, 1934, Bill read, rule suspended, read a second and third times and finally passed.

Which was read.

Mr. Kane arose and said

Mr. President: The Mayor is trying to pass the responsibility to Council for the origin of that legislation. It is my understanding that it originated in one of the Mayor's departments. It is they who wanted it. I believe that every member of Council thought when he passed the ordinance that he was doing something that the Mayor wanted.

Mr. McArdle arose and said:

Mr. President: I have been informed that the Mayor wrote to this organization in New York, inviting them to send the Exhibit to Pittsburgh, and he had written the custodian of the Carnegie Museum asking him to assign the use of the property for the exhibit after coming here. I hardly think he did it with the idea in mind that the New York organization, the owners, would bring this Exhibit here at their own expense.

Mr. Magee moved

That action be postponed until the special meeting of Council next Wednesday, and the Law Department be asked for an opinion as to whether, in the event of the bill becoming a law notwithstanding the Mayor's objec-

tions, could the expenses be paid without the co-operation of the Mayor?

Which motion prevailed.

Mr. President: On Bill No. 2303—An Ordinance authorizing the Director of the Department of Public Works to advertise for proposals and to award a contract for the rental of construction equipment and motor trucks required on improvements to be carried out by city forces, I would like to state that I have consulted with the Director and the Chief Engineer of the Department of Public Works for the purpose of ascertaining whether they could contract for the use of the equipment without the operators. The department advised that this could not be done.

I wish to call attention to the fact that there is a Construction Industry Code in effect which provides the minimum wage to be paid all workers in this classification. The Director's representative (Henry Johnston) assured me that he would confer with the Law Department to ascertain whether the owners of this equipment to be rented by the City would have to pay the minimum wage rate set up in this Code.

It seems to me that the prices the city paid in the past for the use of this equipment is justification for the owners to pay the prevailing rate of wage to the operators. Heretofore they

only paid these mechanics laborer's wages. They have made huge profits at the expense of the operators.

Therefore, in the readjustment of the prices for this equipment, I wanted to be assured that the owners of the equipment will take into consideration the prevailing rate of wages fixed for operators. I believe if the City of Pittsburgh is to continue in a program for engaging these men they should be given some measure of protection as far as their wages are concerned. Only recently Council held a hearing on this subject, and it was disclosed that the operators of this equipment were paid laborer's wages. This is contrary to all rules of fairness.

I am voting for this ordinance with the understanding that the Department of Public Works in conjunction with the Department of Law will work out an agreement with the successful bidder or bidders for the furnishing of this equipment that they will pay the rate of wage for the skilled mechanics as set up in the Construction Industry Code.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law and were:

Ayes:—Messrs.

Anderson	Magee
Gallagher	McArdle
Huston	Soost
Kane	Garland, (Pres't)

Ayes 8. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Gentlemen:

With reference to Bill No. 2105, granting a reduction in rental to the Diamond Market Association for the year 1935, which was affirmed by Finance Committee, December 12th, we wish to call your attention to the fact that the Market Association have agreed to reduce their delinquent rent by the amount of \$500.00 each month during the year 1935. They have further agreed

to spend \$7,500.00 to \$8,000.00 on a construction program of structural improvements to the building during 1935. This is in consideration for the reduction in rental which is allowed by this Ordinance, if approved.

We suggest that this Ordinance, before passage, be amended by having the following section added:

The Diamond Market Association will pay the sum of \$500.00 each month towards the reduction of the delinquent rent and they will also expend the minimum sum of \$7,500.00 in making structural improvements to the building during the year 1935. Such improvements must be submitted in detail to the Director of the Department of Public Works and his approval obtained before any work is done.

The Chair presented  
No. 2449.

December 11, 1934.

Committee on Public Works  
of Council.

Gentlemen:

Your request of November 27th for a written report from the Law Depart-

ment as to Bill No. 2266, asking whether an Ordinance amending the Ordinance providing for the grading, regrading, etc., of Noblestown road, by increasing the cost from \$9,000 to \$10,000 requires to be advertised under the Act of 1895, or whether such advertising can be dispensed with, was duly received.

The Act of 1895, to which your Committee referred, has been amended by the Act of May 17, 1921, P. L. 844; 53 P. S. 553, but the requirement of publication continues in the statutes.

Your inquiry has been discussed to a considerable extent in the Law Department and there is a difference of opinion among the several lawyers who have looked into the question as to the appropriate answer—some being of the opinion that the amendment before you should be advertised before passage. Others believe that such advertisement is not necessary. I have had considerable difficulty at arriving at the proper line of distinction but have come to the definite conclusion that where the amending Ordinance includes merely a negligible change from the original Ordinance advertising is not necessary, but where the change is more than a mere negligible change there should be advertising of the amending Ordinance before passage.

It is further my opinion that the decision as to whether a particular amendment is or is not a merely negligible change is to be made by Council itself acting in accordance with their sound discretion in the premises.

My own belief is that in this case a change in amount from \$9,000 to \$10,000 is something more than a mere negligible change, and that since the right and jurisdiction of the City to carry on the improvement is involved, in complying with all statutory requirements, including publication before passage of the Ordinance, this amending Ordinance ought to be advertised. Some of the other lawyers who have studied the subject are of the contrary opinion and think that the advertisement of the amending Ordinance is not required by law. We have been unable to find any Court decisions or rulings relating to the matter and must now make an interpretation according to our best judg-

ment of the law. This communication represents that interpretation.

Respectfully yours,

WARD BONSALL.

City Solicitor.

Which was read.

And there being no objection, the Chair ordered the bill recommitted, and the Report, referred to the Committee on Public Works.

The Chair also took up

Bill No. 2348. Communication from the Mayor returning without approval Bill No. 2165, An Ordinance amending a portion of Section 4, Mayor's Office, and supplementing Section 6, Department of City Controller, of Salary Ordinance of March 29, 1934, etc.

No. 2450.

City of Pittsburgh,  
December 13, 1934.

To the President and Members  
of City Council.

Gentlemen:

I am returning, without my approval, Bill No. 2114, purporting to pay certain city employees for two weeks vacation. If the City owes these employees any money, they have recourse to the courts, and, if we do not owe them any money, I don't think this precedent should be established. The payrolls are made by the departments and, unless some reason is advanced why they should be placed on the payroll, it seems that this matter should not be disposed of in this way.

I would call your attention to two of my Assessors, who would receive their pay I am informed, if Council would pass an ordinance, but Council has consistently refused to take such action.

Respectfully yours,

WM. N. McNAIR,

Mayor.

Which was read, received and filed.

Also

Bill No. 2114. Resolution authorizing the issuing of warrants in favor of Murray Edlis and John Fogarty for the sum of \$92.21 each, for two weeks time, being equivalent to the time they would have been allowed for vacations, having been dismissed from Division of Detectives on June 30, 1934, and charging same to Code Account No. 1443-A-1. Salaries, Regular Employees, Bureau of Police.

In Council, December 3, 1934, Read, rule suspended, read a second and third times and finally passed by a two-thirds vote.

#### MOTIONS AND RESOLUTIONS.

Mr. Kane presented

No. 2451. RESOLVED, That the Director of the Department of Public Works be and he is hereby requested to prepare and present to Council as soon as possible an ordinance, under the Act of 1895, for the opening, grading, paving and curbing of Elrod way, from Joshua street to Lemington avenue.

No. 2452. RESOLVED, That the Department of Law be and it is hereby requested to advise Council promptly the status of the suit of the City of Pittsburgh against the W. & H. Walker Company, and that prompt steps be taken to bring it to trial.

Which was read.

Mr. Kane moved

The adoption of the resolution.

Mr. Magee arose and said

Mr. President: I believe the Council should first have a complete report from the City Solicitor with respect to this suit against the W. & H. Walker Company for alleged diversion of city water past the meter.

To bring the case to trial will involve a large expenditure of money, and before we do this I would like to know what the contention of the City is in this case. I know it is highly disputable, in a technical sense.

Mr. Kane arose and said:

Mr. President: I understand the Law Department has already prepared its side of this case preparatory to bringing it to trial. It is listed on the court calendar for trial, but through some reason or other it has been postponed. This resolution simply provides that the Law Department shall take action to bring this case to trial.

And the question recurring on the adoption of the resolution.

The motion prevailed.

No. 2453.

WHEREAS, It has been reported to City Council that the Duquesne Light Company, the utility corporation supplying electric current to the City of Pittsburgh and the residents therein, has been and is grossly overcharging some of the smaller consumers by charging them a higher rate for electric current than the proper and legal classification would warrant under the tariff or schedule of rates promulgated by the aforesaid Duquesne Light Company, and that by reason thereof the aforesaid consumers have been innocently led to pay overcharges of hundreds of thousands of dollars; and

WHEREAS, Conversely the said Duquesne Light Company has placed other consumers, mostly of a larger class in point of consumption, on a smaller rate than is permitted under the classification of rates promulgated under the tariff or schedule of the aforesaid company; and

WHEREAS, It is further reported that a number of small consumers learning of this discrimination and overcharge have made applications and after considerable trouble secured refunds and reductions of rate heretofore charged them for electric current by proper reclassification; Now, therefore, be it

RESOLVED, That the Department of Law of the City of Pittsburgh make a thorough and comprehensive study and survey of the charges now being made for electric current by the aforesaid Duquesne Light Company to the City of Pittsburgh to ascertain whether or not the rates paid by the City of Pittsburgh are under a proper classification of the tariff or schedule of the said company, whether the bills for electric current sent to the City of Pittsburgh are proper and correct and generally whether the said City of Pittsburgh is being overcharged under its contract with the said Duquesne Light Company for electric current; and also, where possible, to endeavor for and in behalf of the consumers residing in the City of Pittsburgh to correct any overcharges made by the said Duquesne Light Company by reason of improper, unjust and incorrect classification under their present tariff or schedule of rates or by reason of improper and incorrect billing, so that some of the smaller

consumers of electric current will not be unjustly and inequitably burdened to the relief and benefit of the larger consumers.

Which was read.

Mr. Kane moved

The adoption of the resolution.

Mr. Magee arose and said:

Mr. President: I regret very much that I will have to oppose this resolution for the same reasons I advanced on the resolution in the Walker water case. I am in sympathy with the purposes outlined therein, but would like to know some of the reasons stated in the preamble, and for that reason I would ask that it be referred to committee for discussion.

Mr. Kane arose and said:

I have no objection, Mr. President, to referring it to Committee for further discussion. I will entertain any constructive amendments that a member might suggest. I am reliably informed that there has been discrimination against certain consumers of the Duquesne Light Company. In some cases rebates have been made to mercantile establishments, and later I will be prepared to furnish these names.

The City of Pittsburgh is a large consumer of electric current, and I am informed that the contract the City has with the Duquesne Light Company is unsound so far as the rates charged the City is concerned.

I shall not press for immediate action on this resolution today; but want to say that if it is adopted now or later by this Council I want to see some real results.

Mr. Magee arose and said:

Mr. President: Nobody in the Law Department has the slightest understanding of public utility rates, and before definite action is taken on the resolution I think we should confer with the City Solicitor and his Special Assistant on Utility Matters. I furthermore believe that we ought to have a public hearing. The author of the resolution say he has the names of some

persons who can furnish the proper information. The people should be invited to appear before Council and present whatever facts they have pertaining to this subject.

The Chair stated

As there are no objections, the resolution will be referred to the Committee on Public Service and Surveys.

And the resolution was referred to the Committee on Public Service and Surveys.

Mr. McArdle, at this time obtained leave, and presented

No. 2454. Resolution authorizing and directing the City Controller to transfer the sum of \$1,000.00 from Code Account No. 1080, Public Utilities Litigation, to Code Account No. 1078, Supplies and Printing, Department of Law.

Also

No. 2455. Communication from Jas. C. Chaplin, Chairman, Special Committee, Pittsburgh Clearing House Association, offering to pay the City of Pittsburgh 1% on inactive accounts.

Which were read and referred to the Committee on Finance.

Mr. Magee arose and said:

Mr. President: I think we ought to have a hearing on the resolution relative to electric rates. I would like to have a hearing on Wednesday and have the people come here and tell us what they did.

The Chair stated

That Wednesday afternoon had been set aside for a meeting of the Budget Committee to try to close up the budget for 1935, and suggested that the matter be taken up in committee tomorrow and a date fixed there for a hearing later in the week.

Mr. Anderson moved

That the Minutes of Monday, December 10, 1934, be approved.

Which motion prevailed.

And on motion of Mr. Soost

Council adjourned.

CITY OF PITTSBURGH  
Department of Law

December 30, 1934.

To the Honorable the Council of  
the City of Pittsburgh.

Gentlemen:

At a meeting of the Finance Committee of Council, held December 18, 1934, Bill No. 2454, Resolution authorizing and directing the City Controller to transfer the sum of \$1,000.00 from Code Account No. 1080, Public Utilities Litigation, to Code Account No. 1078, Supplies and Printing, Department of Law, was given an affirmative recommendation subject to a report from the Law Department "for the necessity of the funds requested in this Resolution."

You are advised that this transfer of \$1,000.00 to the Supply and Printing Account in this Department is for the cost of printing the City's Briefs and Records in several cases before the Supreme Court.

In the Westinghouse Air Brake case, in which a new trial was granted the City of Pittsburgh, the cost of printing the Brief and Record was \$736.38. Upon payment of this printing bill by the City the same will then be collectible from the Westinghouse Air Brake Co., but not until the bill is paid, receipted and filed in the office of the Prothonotary.

I, therefore, ask that the Resolution be passed by Council as affirmatively recommended by the Finance Committee.

Respectfully yours,

WARD BONSALL,

Which was read.

Mr. Kane arose and said:

Mr. President: I am not ready to vote on this resolution. I see no need for immediate action. I am of the opinion that the promoters of the Exposition Building cannot do anything intelligent until the Council first approves the plans of the Allegheny County Authority with reference to the Duquesne Bridge and Ramp.

This resolution came to Council in the midst of an important budget session and at a time when we were trying to arrive at a satisfactory solution of the appropriation and salary bills for 1935. We did not have an

opportunity to intelligently discuss the purposes of this resolution.

If an additional amount of \$200,000.00 is required to construct the Duquesne Way Ramp to fit in with the plans of either the Exposition Society's program or the County Authority improvements, the members of Council should see that the City of Pittsburgh is not obligated for this expense.

The resolution could readily lay over until we have a definite understanding with the Allegheny County Authority as to what it proposes to do with respect to these improvements.

City of Pittsburgh.

Gentlemen:

Due to illness I ask to be excused for absence from Council and Com-

mittee meetings from November 22nd to December 22, 1934, inclusive.

Respectfully yours,

WALTER R. DEMMLER.

Which was read, received and filed.

Mr. McArdle moved

That the request contained in the communication be complied with. Which motion prevailed.

Mr. McArdle arose and said:

Mr. President: I want to call attention to the fact that in the papers which I introduced is a bill now numbered 2473, which is an ordinance to carry out the agreement with the Pennsylvania Trust Company and the State Banking Department, which we discussed with representatives of the Banking Department and the Colonial Trust Company, as Trustee, with respect to the City's interests.

I do not know whether this bill is satisfactory; but in the Finance Committee Mr. Benner (First Assistant City Solicitor) participated in the discussion, and he was asked to prepare a bill to adequately take care of the city's interests. Mr. Benner prepared this bill and left it in the hands of the City Solicitor, Mr. Bonsall, who did not transmit it, and I do not know whether he is satisfied with its terms.

The time is growing short when the City will have to take action, and I asked the City Solicitor for a copy of the ordinance, and have had copies made for each member of Council. I presented this ordinance today so that we may not fail to protect the city's interests through lack of action.

The Chair:

Gentlemen, Honorable William N. McNair, Mayor, is present and desires to transmit a message to Council. We will now hear from His Honor, the Mayor.

Hon. Wm. N. McNair, Mayor, said:

Mr. President and Members of Council: As Council perhaps knows, the Board of Commissioners of Allegheny County has offered to permit the City of Pittsburgh to operate the County Airport for one year, beginning January 1, 1935.

My purpose in appearing here this afternoon is to ask Council's approval of the acceptance of this offer. Under the Act of Assembly of 1929 I am ad-

vised that it will require the passage of an ordinance by Council to accept this offer and operate the airport.

Mr. Harmar D. Denny, Jr., Chairman of the Aviation Committee of the Pittsburgh Chamber of Commerce, is here and I am sure that he will be glad to go into detail regarding this subject.

I am informed that if immediate action is not taken Pittsburgh will be cut off from air facilities. I will submit, for Council's consideration, the resolution adopted by the County Commissioners.

The total cost of operating the Municipal Airport is \$40,000.00 and this amount can be raised by public subscriptions and fees charged private persons and corporations for the use of the airport.

Mr. Magee arose and said:

Mr. President: Before any action is taken on this proposal, I want a written opinion from the City Solicitor that it is legal for the City to operate this airport. I would also want to know how many passengers are now served in the manner that would yield \$40,000.00. I think the Council should hold a conference with all parties concerned, so that all matters relating to the subject can be intelligently discussed.

Mr. McArdle arose and said:

Mr. President: Before we go into this and further muddle the situation, we ought to look into its legal aspects and then decide whether, as a matter of policy, we want to go into it. The Commissioners cannot dispose of a \$3,500,000 airport with a wave of the hand.

Mr. Anderson moved

That the Council meet with the Mayor and the County Commissioners on the matter of the County Airport on Wednesday next at 4:00 P. M., at a place suitable to the said Commissioners. Which motion prevailed.

The Chair presented

#### MOTIONS AND RESOLUTIONS.

Mr. Gallagher presented

No. 2533. WHEREAS, For a considerable length of time, there have been pending negotiations with the South Pittsburgh Water Company for the purchase of their property and equipment in the City of Pittsburgh and contiguous territory; and

WHEREAS, Numerous conferences

have been held, at one of which the South Pittsburgh Water Company submitted a figure to the City of Pittsburgh of the sum of \$14,000,000.00 as the purchase price of their plant; and

WHEREAS, A mere cursory perusal of the files of the Public Service Commission, wherein proceedings were pending for a long number of years to fix the fair value of their property, will show this sum to be not only unreasonable and exorbitant, but plainly ridiculous; and

WHEREAS, In view of the manner and fashion in which the said South Pittsburgh Water Company has been conducting its negotiations with the said City of Pittsburgh; Therefore, be it

RESOLVED, That the City Law Department be immediately directed and instructed to make an investigation as to the advisability of condemning the said properties of the South Pittsburgh Water Company under the Acts of Assembly made and provided therefor, and to make a full report of their findings to City Council as soon as possible. Keeping in mind that the original cost of all of the South Pittsburgh Water Company properties, according to the computation of the Public Service Commission, was only \$5,838,215.00, these figures appearing in the valuation proceedings before the Commission in the case that was discontinued in 1929, and that the said Company has not, as far as can be ascertained, made any addition, replacements, improvements or expansions, to warrant under any circumstances whatsoever consideration of the sum of \$14,000,000.00 submitted as the price of its properties or anything approaching the said figure, and that the submission of the said figure was not in good faith and was merely to confuse the already befuddled situation.

Which was read.

Mr. Gallagher moved

The adoption of the resolution.

Mr. Gallagher arose and said:

Mr. President: This resolution merely instructs the Department of Law to advise Council as to the feasibility and desirability of taking steps to condemn the property of the South Pittsburgh Water Company.

Mr. McArdle arose and said:

Mr. President: As a matter of

information, have we had a formal report from the Law Department on the matters dealt with in this resolution?

Mr. Gallagher said:

Mr. President: In answer to Mr. McArdle, I will say that we have not had a report from the Department of Law on the previous requests submitted to them on this subject, but the facts set forth in this resolution are in accordance with the facts set forth in the previous resolutions adopted by Council.

Mr. McArdle said:

Mr. President: My contention is that this resolution sets forth certain statements of fact. I have read some of them in the newspapers, but before we pass upon them I believe Council is entitled to a report from the Department of Law. That is why I asked if we had a report from the Law Department. I am not going to be drawn into an informal discussion of something that we had up formally with the Department of Law.

The Chair said:

Gentlemen, I would suggest that the resolution go to committee for a full and complete discussion of all phases involved.

Mr. Gallagher said:

Mr. President: I am agreeable to that, but the resolution merely directs or instructs the Department of Law to make an investigation as to the advisability of condemning the property of the South Pittsburgh Water Company.

Mr. McArdle said:

The point I am making is this, that this resolution sets out certain things as fact, which seem to me to have the basis of a formal report from the Department of Law if we have not already had it. If it has been here, it has escaped my memory; and if not, it should be the basis of a report from the City Solicitor, as previously requested. We ought to act on the proceeding which already has been started, and we ought to have an expression from the Department of Law on the conference that they were authorized to hold with representatives of the South Pittsburgh Water Company.

The Chair said:

The resolution states "condemnation of the whole properties of the South Pittsburgh Water Company." Is it your intention, Mr. Gallagher, to take over all the property of the Water Company, that within and that without the City Limits?

Mr. Gallagher said:

Mr. President: Under the Act of 1874, the City does not need to condemn all the property of a utility, only that part lying within the City.

The Chair said:

The resolution is not clear on that subject, and for that reason I would suggest that the resolution go to committee for discussion, if necessary, with the City Solicitor.

Mr. Gallagher said:

Mr. President: If it is the sense of Council that the resolution go to committee for discussion, I am agreeable to that. The resolution does not alter or change anything on which the committee is already at work.

The Chair said:

If Council can secure the information asked for in the previous resolutions from the Department of Law, the committee can affirm the resolution on Wednesday. I don't think Council should take hasty action on such an important matter.

Mr. Anderson arose and said:

Mr. President: Isn't it advisable to refer the resolution to committee and in the meantime ask the Department of Law for a report to be submitted Wednesday?

The Chair said:

If there are no objections, I will ask the Clerk to furnish a copy to the City Solicitor and he be urged to have his report to the Committee on Wednesday.

Mr. Kane arose and said:

Mr. President: I tried to follow the reading of the resolution. It is the purpose of Mr. Gallagher to have the Law Department report on Wednesday what they propose to do.

The Chair said:

That will be all right. Receive

it in Council today and take it up in committee on Wednesday, at which time we can ask the Department of Law to submit their report.

Mr. Gallagher arose and said:

Mr. President: The resolution is very clear. It merely instructs the City Law Department to make an investigation as to the advisability of condemning the property of the South Pittsburgh Water Company.

The Chair said:

The resolution is not specific, whether you desire to condemn the whole property of the Water Company or merely that within the City.

Mr. Gallagher said:

Mr. President: We do not intend to go outside the City Limits. The appraisal figure quoted in the resolution is taken from the records of the Public Service Commission of Pennsylvania. It is far below the price quoted by the representatives of the Water Company, for their plant, of \$14,000,000.00.

Mr. McArdle arose and said:

Mr. President: The point I am making is not in the resolution or what it aims to do, but it is set out in this resolution in the second where-as clause that conferences have been held and the Water Company submitted a figure. If that is true, it should be made a matter of record in Council. I am not satisfied to take it out of the newspapers, or take it from a personal conversation with the City Solicitor. The Law Department was instructed to do certain things and after they have been done, we ought to have a formal report. After the report is received, the question is open for further action by Council.

Mr. Gallagher said:

Mr. President: The resolution merely asks the recommendation of the Department of Law as to the advisability of condemning the property of the Water Company. The only thing I am interested in is to see that the City of Pittsburgh shall not be over-charged in the rates fixed by the Company for its service. It is time that the City of Pittsburgh officially took action to compel the Water Company

to furnish water at rates which are just and equitable.

The Chair said:

You are asking the Council to vote on a certain fact. We have no knowledge that the Company has offered to sell its plant for \$14,000,000.00. It is the duty of the Law Department to furnish Council all the information it has secured from the Company representatives in conference which the Council authorized them to hold.

Mr. Gallagher said:

The Company submitted a letter offering to sell its plant to the City of Pittsburgh for \$14,000,000.00, and the offer expired today.

The Chair said:

That information has never been submitted to Council.

And the question recurring on the adoption of the resolution.

The ayes and noes were ordered taken, and being taken were:

Ayes:—Messrs.

Anderson	Huston
Gallagher	Kane

Noes:—Messrs.

Demmler	Soost
McArdle	Garland, (Prs't)

Ayes 4. Noes 4.

And there not being a majority of the votes in the affirmative, the motion did not prevail.

The Chair stated

If there were no objections the resolution would be referred to the Committee on Finance, and copy be sent to the Law Department for a report to the Committee on Wednesday.

And there being no objections, the resolution was so referred.

The Chair presented

No. 2534.

CITY OF PITTSBURGH  
Office of the Mayor.

December 26, 1934.

To the President and Members  
of City Council.

Gentlemen:

I am returning Bill No. 2397, without my approval, for the following reason:

This ordinance, together with Ordinance No. 2290, are both restrictive measures and would merely complicate the situation as far as law enforcement on the part of the police. If this is passed over my veto, I think the reaction will be sufficient on the part of the people that the next Council will repeal these and many other measures which are restricting their freedom.

Respectfully yours,

WM. N. McNAIR,

Mayor.

Which was read, received and filed.

No. 2535.

CITY OF PITTSBURGH  
Office of the Mayor.

December 26, 1934.

To the President and Members  
of City Council.

Gentlemen:

I am returning Bill No. 2290, with-

out my approval, for the following reason:

This Ordinance, together with Ordinance No. 2397, are both restrictive measures and would merely complicate the situation as far as law enforcement on the part of the police. If this is passed over my veto, I think the reaction will be sufficient on the part of the people that the next Council will repeal these and many other measures which are restricting their freedom.

Respectfully yours,

WM. N. McNAIR,

Mayor.

Which was read, received and filed.

Also

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor?"

Section 3. Said Agreement shall further provide, in substance, that none of the physical work in connection with said improvement shall be done by the City of Pittsburgh, nor shall the City of Pittsburgh pay or contribute any part of the entire expense thereof, but that all of said physical work shall be done, and the entire cost thereof shall be borne by Allegheny County Authority and others.

WHEREAS, The said Western Pennsylvania Exposition Society built buildings upon said leased property and for many years conducted therein an exposition; and,

WHEREAS, The Western Pennsylvania Exposition Society has offered to surrender possession of all of said leased premises, including the building erected thereon by said Society, upon condition that the City of Pittsburgh shall pay to it the sum of Thirty Thousand (\$30,000.00) Dollars, in full payment of all rentals due from the City of Pittsburgh to the said Society, which offer has been accepted by the City of Pittsburgh; and,

WHEREAS, The Greater Pittsburgh Exposition Society has been incorporated by the Court of Common Pleas of Allegheny County, Pennsylvania, at No. 3075

All that certain tract of land situate in the First Ward of the City of Pittsburgh and extending from the Manchester Bridge to Barbeau Street, and from Duquesne Way to the low water line.

Said lease shall contain provisions as follows:

(a) The term of said lease shall be fifty (50) years, commencing January 1, 1934.

(b) It shall authorize the Society to remove all of the buildings and structures now located on the premises.

(c) It shall provide that it is made subject to the rights of certain tenants of the City of Pittsburgh now in possession of portions of said premises until the City shall dispossess them, as provided in their several leases, or as may be agreed between the City of Pittsburgh and the tenants, respectively, so that the Society can be placed in exclusive possession of the leased premises.

(d) It shall contain a provision that during the intervening time between the execution and delivery of the lease and the time it shall become effective, if any, the Society agrees:

In good faith to forthwith proceed to the preparation of plans for the construction of a new building for the

purposes aforesaid upon land as hereinbefore described, said building to contain quarters for housing a permanent exposition, exhibition, furnishing facilities for public gatherings and other activities connected therewith; said building to be constructed according to approved principles of construction and to cost not less than Three Million (\$3,000,000.00) Dollars and the plans in their general import to be approved by the Director of the Department of Public Works and the City Architect.

Such sum of money shall not exceed \$200,000.00.

This advancement shall not be construed to change or affect the payment

agreed to be made by the Society to the City of three per cent (3%) of the gross earnings of the Society which shall not be less than \$22,600.00 in any one year but the Society shall be permitted to deduct from the said three per cent (3%) of the gross earnings all monies in excess of the minimum amount of \$22,600.00 guaranteed to be paid per annum out of the gross earnings until there has been refunded to the Society the aforesaid sum of \$200,000.00 or less, advanced for the erection of the proposed new building with interest upon said sum of money computed at the rate of six per cent (6%) per annum upon the net amounts due from time to time.

## No. 304

**AN ORDINANCE**—Evidencing the consent of the City of Pittsburgh to the entry upon and use by Allegheny County Authority of portions of West Liberty avenue, Pioneer avenue and Saw Mill Run Boulevard, and such other streets and alleys as may be affected thereby, for the purpose of reimproving said West Liberty avenue, Pioneer avenue and Saw Mill Run boulevard and constructing and operating a grade separation and plaza at the intersection of said West Liberty avenue and Saw Mill Run boulevard, in conformity with a certain plan; prescribing the terms and conditions of such consent, entry and use; transferring to Allegheny County Authority title to lands and said improvement when completed; providing for the ultimate conveyance of said lands and improvement to the County of Allegheny; and providing for the enactment by the City of Pittsburgh of any and all legislation necessary to make effective such consent, terms, conditions, entry and use, and necessary or desirable to acquire for Allegheny County Authority the land and interests therein required for the improvement, and necessary or desirable to require all public service companies, public utilities and private parties at their own expense to make all changes that may be necessary of and in relation to the property and facilities respectively owned by them.

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That the City of Pittsburgh (hereinafter referred to as the "City") hereby consents to the entry upon and use by Allegheny County Authority (hereinafter referred to as the "Authority") of portions of West Liberty avenue, Pioneer avenue and Saw Mill Run boulevard, and such other streets and alleys as may be affected thereby, for the purpose of reimproving said West Liberty avenue, Pioneer avenue and Saw Mill Run boulevard and constructing a grade separation and plaza at the intersection of said West Liberty avenue and Saw Mill Run boulevard (which*

reimprovement, grade separation and plaza are hereinafter collectively referred to as the "Improvement") in conformity with a certain general plan thereof known as Allegheny County Authority Plan Number 100, consisting of two sheets respectively numbered 100 and 100-A. (which plan and sheets are hereinafter collectively referred to as the "Plan") on file in the office of the Bureau of Engineering of the Department of Public Works of the City, in accordance with and subject to the terms and conditions set forth in the following Sections of this Ordinance.

Section 2. All work necessary for the construction of the Improvement shall be done in conformity with and shall be governed by the Plan, which Plan is hereby agreed to and approved.

Section 3. The City shall not do any part of the physical work in connection with or required by the construction of the Improvement, either work of new construction, alteration and/or relocation of existing facilities of the City or others, nor shall the City pay or be under obligation to pay any part of the entire cost and expense of such physical work; but all of such physical work (including, without limiting the generality of the foregoing language, the alteration and/or relocation of the trunk sewer of the City now within the lines of said West Liberty avenue) shall be done, and the entire cost and expense thereof shall be borne, by the Authority and others; provided, however, that nothing herein contained shall require the Authority to pay or reimburse to the City all or any part of the cost to the City of designing and/or specifying any part of the work which the City may, by agreement with the Authority, design and/or specify, or all or any part of the cost to the City of supplying such consultation as to, and maintaining such engineering and technical supervision and inspection of the work, or any part thereof, as the City may, by agreement with the Authority, supply and maintain.

Section 4. All condemnation proceedings necessary and appropriate to acquire the land and interests therein

necessary for the construction of the Improvement shall be instituted and/or conducted by the Authority, except that if, in the discretion of the Board of Members of the Authority, it shall be convenient, desirable, advantageous or necessary that the City shall institute condemnation proceedings in aid of such construction, the City will enact the necessary legislation to institute such proceedings, and immediately upon acquiring any right to possession of any land, or interests therein, or any other right in virtue thereof, will, for a nominal consideration only, grant, convey, assign, transfer and set over said right of possession and/or other right to the Authority. Whether condemnation proceedings be instituted by the Authority or by the City, the Authority shall bear the entire cost and expense thereof, and shall pay all costs of purchase, awards, verdicts, judgments and damages in connection with and because of the purchase, taking, injury and/or destruction of any and all property incident to such construction and/or the Improvement. Should the City become liable for the payment of any, or any part of any, purchase price, award, judgment and/or damages by reason of its being a party to any such condemnation proceeding, the Authority shall pay the same to the appropriate creditor in each case within sixty (60) days after final adjudication of Viewers' or Court proceedings thereon, whereupon the City will forthwith grant and convey to the Authority all the rights, title and interest acquired by the City in any such land by virtue of any such condemnation proceeding.

The City shall not be under obligation to institute any condemnation or other proceedings involving it in any liability for damages for property taken, injured or destroyed in aid of the Authority, until, if requested by the Council of the City, the County of Allegheny shall effectively agree to indemnify the City and save it harmless from any such liability.

Section 5. The City will, upon request of the Authority, effectively demand of each public service company, public utility and private party whose property and/or facilities are located

upon streets of the City or upon land owned or to be acquired by the City in aid of the Authority and/or are otherwise affected by said construction or by the Improvement, at its or his own expense, to make all necessary adjustments, repairs, relocations and connections to existing facilities, and to install all necessary new facilities and connections, prior to or during said construction; and the City will give and serve all notices to every such public service company, public utility and private party, and take, institute, intervene in, prosecute and/or defend all such proceedings as may be necessary or desirable to accomplish such ends. Any such notices given, action taken, proceeding, intervention, prosecution and/or defense, if made and done in the City's name, shall be made and done at the Authority's cost and expense. Any moneys received from any source whatever, as benefits assessed by reason or on account of said construction and/or the Improvement, or as voluntary or enforced contributions toward the cost of the same, or otherwise howsoever, whether received by the City or by the Authority, shall be for the use of the Authority, to be applied to its proper corporate purposes, and, if received by the City, will forthwith upon such receipt be paid over by the City to the Authority.

Section 6. Upon completion of the construction of the Improvement, the Authority shall have jurisdiction and control over the same, and all the right, title and interest of the City of Pittsburgh therein and to the structures, streets and highways included therein, and shall be under obligation to maintain and repair such structures, streets and highways, which jurisdiction and control, right, title and interest, and obligation to maintain and repair, shall extend to the limits of Allegheny County Authority Control specifically indicated on the Plan, and shall continue so long as the Authority, under the provisions of its organic law, shall continue to operate and maintain the Improvement, and until the Authority shall, pursuant to the provisions of said law, convey and transfer said Improvement to the County of Allegheny.

Without limiting the generality of the foregoing language, the jurisdiction and control above referred to as being in the Authority, its right, title and interest, and its obligation to maintain and repair, shall be understood as conferring and imposing upon the Authority the right and duty at its own expense to maintain the necessary traffic control in connection with the completed Improvement, and to provide the necessary illumination thereof, and to save the City harmless in respect of either of said subjects, but shall not be understood as relieving the City of the expense of the maintenance and repair of its sewers, water lines and other facilities within the limits of the Improvement, as provided in Section 8 hereof. Nothing in this Section contained shall be understood as impairing, and the City hereby expressly reserves to itself, the right perpetually to maintain within the limits of its highways as now existing, as the same may be included within the limits of the Improvement, or in such substitute location as may be agreed upon between the City and the Authority, sewers, water lines and other sub-surface facilities, and the same to repair, replace and add to as the City shall deem necessary or convenient, in accordance with the provisions of Section 8 hereof. Nothing in this Section contained shall be understood as preventing the Authority from discharging its obligations as to maintenance and repair, traffic control and illumination by agreement with others or in any way or ways which will not impose any part of the cost thereof upon the City.

Section 7. The Authority will indemnify the City and save it harmless from any and all claims, actions or demands arising out of, from or in connection with the construction of the Improvement and/or the opening, widening or reconstruction within the limits of the Improvement as indicated on the Plan of any of the public streets and highways of the City affected thereby; provided, however, that the Authority's obligation in this regard shall not extend to any streets or highways, or any portions of any streets or highways not opened, whether

dedicated or not, and/or not in common daily use by the general traveling public; and the City will indemnify the Authority and save it harmless from any and all claims, actions or demands arising from or in connection with any such streets or highways or portions thereof.

Section 8. Notwithstanding any provisions herein contained, the City shall have the right at any time to enter upon the completed Improvement, or any part thereof, for the purpose of constructing, replacing, repairing or altering any sewers, water lines or other sub-surface facilities of the City at the City's own expense, and with an obligation on the City's part, after such entry, construction, replacement, repair and/or alteration, at the City's own expense, to restore the parts of the Improvement affected thereby to the same condition in which they were prior to said entry; provided, however, that any such entry shall be made only after a written permission therefor shall have been issued by the Authority after proper application by the City, and that the time or times of prosecuting such work and the method of prosecuting the same, so far as said time, times or method may affect the flow of traffic over or on said Improvement and/or the stability, durability, permanence, life and usefulness of any part of the surfaces or structures constituting the Improvement, shall be subject to control, inspection and supervision by the Authority in its absolute discretion, which control, inspection and supervision by the Authority, the City will respect and make effective.

Section 9. The consent hereinabove, by Section 1 hereof granted, shall be ineffective for all purposes unless the construction of the Improvement shall be commenced within one year from the date of the final passage of this Ordinance.

Section 10. This Ordinance is to be understood as being ancillary to and required by the terms of a certain Loan Agreement entered into between the Authority and the United States of America dated as of August 1, 1934 (a copy of which Loan Agreement, as

executed by the Authority and on behalf of the United States of America is on file in the Office of the City Clerk), and as being in its form, content and enactment subject to the approval of the United States of America; and its enactment by the City as and for the act of the City is understood as being one of the inducements to the United States of America to perform said Loan Agreement, and to purchase the Bonds and make the Grant thereby contemplated.

Section 11. This ordinance shall become null and void unless within thirty (30) days after its passage and approval, the Allegheny County Authority shall file with the City Controller, its certificate of acceptance of the provisions thereof, authorized and executed by its proper officers, with its corporate seal attached.

Section 12. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed so far as the same affects this Ordinance, with special reference to Ordinance No. 267, which became a law September 17, 1934.

Whereas, An approach to the loading platform on the South side of the new Post Office is now under construction.

This approach is in the form of a ramp or inclined roadway parallel to Bigelow Boulevard making a grade intersection at Seventh avenue a short distance below the intersection of Bigelow and Seventh.

The Government has been obliged to proceed with the construction of this ramp as no other suitable access is possible under existing adjoining street conditions.

It is known locally and recognized as a fact that the operation of postal trucks and privately owned mail carrying vehicles on this approach will create a situation resulting daily in interference to traffic flow and expeditious movement of the mails.

A definite and comprehensive city plan is available embodying all the necessary features to avert not only this impending condition but to correct an existing highly unsatisfactory traffic condition.

This plan does not void all of the work being done at the present time by the Government but aims at the elimination only of the inclined narrow roadway to Seventh avenue.

It has been discussed a number of times with the Government but no practical means of obtaining the improvement has been developed prior to the recent correspondence initiated by his Honor the Mayor.

Letters have recently been addressed to the Government by his Honor and by the Director of Department of Public Works at his direction.

Copies of these letters are attached and as a matter of record are made a part of the resolution.

Now, therefore, be it

Resolved, That the Mayor and Council of the City of Pittsburgh, do hereby approve and heartily endorse the suggestions made and contained in these letters, and further

That in furtherance of the plans contained therein, the Director of the Department of Public Works be instructed to prepare an ordinance locating the street lines required by the improvement and establishing the costs incident to the necessary widening as a definite indication to the Government of the City's willingness to cooperate

in providing a safe and efficient mutually satisfactory plan.

Whereas, The Public Service Commission has recently determined that six per cent of fair value of property used in the public service shall constitute a fair return for public service companies; and,

Whereas, The Council of the City of Pittsburgh is contemplating rate or reparation complaints against certain public service corporations serving the public in the City of Pittsburgh; and,

Whereas, The determination of rates and fair return is based upon certain factors, viz: the value of the property of the company devoted to the public use, the gross revenues derived from the service rendered to the public, the expenses of operation, and particularly certain elements included among those,

of which the most important are the item of going concern in the valuation, the depreciation or replacement charge against annual revenues and the payment of fees for services rendered by holding companies; and,

Whereas, Under the present procedure of the Public Service Commission an expenditure of several hundred thousand dollars by complainants and an equal amount by the respondent (which outlay entirely falls upon the consumers since the expense of the defendant becomes an operating expense) and a period of time from two to five years is required to investigate a rate schedule; and,

Whereas, The long delay and excessive cost of investigating the complex data upon which the rate is founded, has been due heretofore to the lack of detailed knowledge of the value of plant and of the operations of the public service companies, which ignorance of the facts compelled the employment of public service engineers, accountants counsel, and detailed special examination of the records of the company, with protracted hearings and many continuances, so that in all cases of rate complaints against large and involved public service corporations, several years have been consumed in the discovery of the facts; and

Whereas, The Public Service Commission of Pennsylvania has ample powers under the Act creating it to require reports and information covering any relevant matters coming within its jurisdiction, and besides is authorized to examine the records of such corporations through its own engineers and accountants; Now, therefore, be it

Resolved, That the Public Service Commission be and it is hereby requested to order the South Pittsburgh Water Company, the Duquesne Light Company, the Equitable Gas Company, the Peoples Gas Company, the Pittsburgh Street Railways Company, the Pittsburgh Motor Coach Company, the Pennsylvania Water Company, the Yellow Cab Company of Pittsburgh and the Pittsburgh Transportation Company, to supply within such reasonable time as shall be determined by the Public Service Commission an inventory and appraisalment according to the repro-

duction, new, less, accrued depreciation estimate, the amount of the depreciation charged, together with a complete statement of the theory of the calculation of such depreciation, and copies of all contracts with holding companies or other affiliated companies whereby fees or compensation is paid for management, engineering, banking, purchasing, accounting or other services.
